EXT. J&H SCRAPYARD - DAY

The Adventure City skyline fills the horizon in the distance.

The camera floats down over a tall wooden fence into a scrapyard filled with mountains of twisted scrap metal.

At the center of it all is a huge crane with an electromagnet at the end of a long arm. HANK sits at the controls and uses the crane to move scrap metal from one pile to another.

Hank wipes sweat off his brow as he listens to the news on a little portable radio.

RADIO ANNOUNCER (O.S.)

It's going to be a scorcher today folks. We're looking at a high of 98, cooling down into the evening and we are forecasting clear skies up and down the coast, which means Adventure City should get a good look at tonight's meteor shower.

Nearby, JANET leans over a work bench and uses a blow torch to cut through a large chunk of steel. Her welding gear is connected to several large gas tanks.

A phone rings in the office trailer. Janet lifts her welding mask and walks toward the trailer.

JANET

I'm comin', I'm comin'.

INT. TRAILER - DAY

A goldfish paddles lazily in a fishbowl beside the phone. This is FLOYD. Janet walks in and answers the phone.

JANET

J&H scrap, you bring us trash, we pay you cash... Hank? Sure thing, I'll get him.

Janet holds open the spring loaded front door of the trailer and shouts to Hank.

JANET (CONT'D) (CONT'D)

Hank! Phone!

HANK

Okey-doke.

II

Hank hops down from the crane and jogs over to the trailer.

Janet talks to Floyd the fish as she waits for Hank.

JANET

Floyd, when are you going to start answering the phone? You're sitting right beside it.

Hank walks inside and the door swings shut behind him.

HANK

Yell-o... Hello?... Weird, there's nobody there.

JANET

Maybe she didn't need rusty old scrap metal after all.

Janet laughs at her own joke.

HANK

Oh well, back to work--

Hank pushes the door, but it won't open.

HANK (CONT'D) (CONT'D)

What on Earth?

REVEAL: The door has been padlocked from the outside.

HANK (CONT'D) (CONT'D)

The door's locked!

JANET

Here, let me try.

Hank looks out through the bar covered window. A HOODED FIGURE climbs inside his crane.

HANK

Oh my goodness, somebody's stealing the crane!

Janet looks out the window, and they watch as the crane drives toward the entrance of the scrapyard.

JANET

Are they nuts? They're headin' straight for the welding tanks!

KABOOM! A welding tank explodes as the crane runs over it. It sets off a chain reaction, blowing up tank after tank. ¶ The crane smashes through the fence, and drives off down the road as fires start to break out all over the scrapyard.

HANK

(shouting)

What are we going to do! We're trapped!

JANET
(whispering)
Keep your voice down, you know
Floyd can't handle the stress.

Janet and Hank shoot a look over to Floyd the fish who has no idea what's going on. Floyd opens his mouth and a tiny bubble escapes.

Floyd hears the explosions and slowly starts toward the window to see what's going on. Janet runs over, and turns the fishbowl so Floyd can't see outside.

JANET (CONT'D) (CONT'D)
Nothing to see over there! Just sit
back, relax and have a little
snack.

Janet picks up the phone and dials.

JANET (CONT'D) (CONT'D)
Hi there, PAW Patrol? This is Janet
from J&H Scrap...

Janet shoots a glance at Floyd to make sure he's not watching, then she covers the phone and whispers in a panic.

JANET (CONT'D) (CONT'D)
(whispering)
We need help! The whole place is
burning down! You've gotta come
quick!

EXT. ADVENTURE CITY SHORELINE - DAY

A buoy bobs gently in the turquoise blue water. A lazy seagull lands on the buoy.

FWOOOOSH! Suddenly an enormous aircraft carrier rises up from under the water. A PAW Patrol logo is emblazoned on its hull.

The camera flies over the deck, as the bridge of the carrier rises up to its full height. In the bridge, Ryder talks into the intercom. []

RYDER
All right pups, we've got a fire at
the scrapyard, and by the sounds of
it, we don't have much time. No
fire's too big, no pup's too small!

EXT. AIRCRAFT CARRIER - DAY

Skye's jet rises up onto the deck of the carrier. SKYE switches on the engines.

RUBBLE stands on deck, wearing a flight deck helmet, goggles and headset. He signals Skye using two orange aircraft guidance batons from his pup pack.

RUBBLE
Skye, you are clear for takeoff!

Rubble swings the batons down with a flourish. Skye engages the throttle.

SKYE
Let's take to the sky!

The jet catapult kicks in. Skye takes off down the runway.

IN THE BRIDGE

Ryder watches Skye through his binoculars, then speaks into a radio.

RYDER
Zuma, you are go for water launch.

INT. AIRCRAFT CARRIER - SUBMARINE LAUNCH BAY - DAY

ZUMA jumps into his submarine and closes the glass cockpit.

ZUMA
Aye, aye, Ryder sir!

An iris shaped door opens in front of Zuma's sub, revealing a long tunnel with a track along the ceiling.

Zuma hits a button and his sub zips along the track. On the other end of the track a second iris door opens and ocean water rushes into the tunnel. Water splashes up onto the windshield of the sub.

ZUMA (CONT'D) (CONT'D)
Awwooo awooo!

II

Zuma's sub shoots out of the aircraft carrier like a torpedo into the open ocean.

EXT. ADVENTURE CITY DOCKS - DAY

A huge steel ramp lowers down from the end of the aircraft carrier and connects it to the docks. On deck, Ryder sits on his ATV.

RYDER
PAW Patrol is on a roll!

The PAW Patrol launches down the ramp into the city.

EXT. SKY - DAY

A huge column of smoke rises into the sky from the scrapyard. Skye flies toward it.

SKYE

I've got eyes on the fire. It's a big one. How close are you guys?

RYDER (O.S.)

We're still two minutes out.

SKYE

We don't have two minutes. I'm going in for a water drop.

Skye banks down toward the surface of the ocean. She presses a button in the cockpit and a huge empty water sack lowers out of her jet. She skims the surface of the water and it fills up like a giant water balloon. Her jet climbs back up into the sky.

Zuma breaches the surface of the water. He deploys the rubber float around the bottom of his sub, and switches into hovercraft mode. He flies out of the water, onto the beach, then jumps up onto the road.

EXT. J&H SCRAPYARD - DAY

The wooden sign for J&H Scrapyard is on fire. The posts supporting it collapse and it crashes to the ground, blocking the entrance with a raging fire.

Zuma skids to a stop in his hovercraft. ▯

ZUMA

We can't get into the scrapyard, the fire's too high!

SKYE (O.S.)

Heads up!

Zuma turns to see Skye's jet flying low to the ground, straight toward the entrance. At the last minute she releases the water sack, and turns her jet straight up.

The water smashes into the front gate, extinguishing the fire and clearing the entrance.

INSIDE THE TRAILER

Hank watches Skye's jet climbing into the sky.

HANK
(shouting)
It's the PAW Patrol! They're gonna
save us!

JANET
Woohoooo!

Floyd spins around and sees the fire outside the trailer. His
eyes bug out. Janet decides to come clean.

JANET (CONT'D) (CONT'D)
Floyd. I'm gonna level with you.
The scrapyard's on fire and we're
locked in this trailer. I hid that
from you and I'm sorry.

Floyd looks terrified.

JANET (CONT'D) (CONT'D)
But the good news is the PAW Patrol
are here and they're gonna save us.
They're cute little puppies who
drive around in cars. I know it
sounds weird but just go with it.

ON THE ROAD LEADING UP TO THE SCRAPYARD

Ryder and the pups speed toward the scrapyard.

RYDER
Alright Marshall let's fight that
fire!

II

MARSHALL
Arf! Water canon!

Marshall transforms into water canon mode while driving at
full speed. He races through the entrance and hits the
brakes, skidding his fire truck in a huge arc.

As it skids, Marshall fires a flurry of blasts from his water
canon, putting out fires in a 360 degree arc.

Ryder and the pups stop inside the scrapyard. The fire has
made it to the trailer.

RYDER
Marshall. The trailer's on fire!

MARSHALL
I'm all out of water!

SKYE (O.S.)
Incoming!

Skye's jet flies by, just over their heads. She releases another water sack that slams into the trailer, expertly extinguishing the fire.

Skye pulls up into a loop. While she's inverted she transforms into helicopter mode. The chopper falls toward the ground, finally righting itself as the blades kick in. She touches down gently.

RYDER
Good job Skye!

Skye jumps down from her chopper and runs over to Ryder.

SKYE
Thanks Ryder. Just doing my part.

Liberty walks over to Skye.

LIBERTY
Okay, now that's just showing off.

SKYE
When you're the smallest pup,
you've got to work twice as hard.

Rocky deploys a crow bar from his pup pack and pries the padlock off the trailer door. It pops off, flies through the air, and hits Rubble's hard hat, causing it to spin around on his head. ▯

ROCKY
Oops! Sorry!

Rubble shrugs.

RUBBLE
That's why I wear a hard hat.

Hank steps out into the steaming scrapyard.

HANK
Oh thank you. Thank you. Thank you.

RYDER
We're just glad you're okay.
Hopefully there's not too much
damage.

HANK
The good thing is, it was all junk
to begin with.

Janet walks out of the trailer carrying the fishbowl and talking to Floyd.

JANET
(to Floyd)
These are the brave pups I was
telling you about.
(to the pups)
This is Floyd. He's a sensitive
soul. This is all a bit much for
him.

Hank takes out his cell phone and flips it to selfie mode.

HANK
Hey! Let's get a picture with Floyd
and the pups!

The pups gather around Hank, Janet, and Floyd. Skye is near
the back of the group.

HANK (CONT'D) (CONT'D)
Janet, grab the little one so she
gets in the photo!

SKYE
I'm fine down here-- Hyup!

Janet picks up Skye with her free arm.

HANK
Everybody say junk! []

ALL PUPS
Junnnnnnk!

SNAP! Hank takes the photo. Skye squirms out of Janet's arms,
annoyed.

SKYE
I hate being the smallest pup.

LIBERTY
If she picked me up, I'd have hit
her with the dog breath.

Liberty acts out breathing stinky dog breath on someone.

Chase deploys a police notebook and a pencil from his pup
pack.

CHASE
That trailer was locked from the
outside. How'd you end up stuck
inside it?

HANK
You're not going to believe this,
but somebody locked us up so they
could steal our ten ton
electromagnet!

RYDER
Who would want to steal a ten ton
electromagnet?

Ryder looks worried.

INT. ABANDONED OBSERVATORY - EVENING

The hooded figure uses a rusty old metal hoist to lower the
stolen electromagnet into a giant machine.

CLANG! The electromagnet settles into place.

She takes off her hood, revealing a mass of dyed green hair.
We still don't see her face, but this is VICTORIA VANCE aka

VEE.

EXT. ADVENTURE CITY STREET - NIGHT

SAM STRINGER, a bookish news reporter with glasses stands on
a busy sidewalk, microphone in hand. The pup tower is visible
over his shoulder. III

SAM STRINGER
I'm Sam Stringer reporting live
from downtown Adventure City, where
we're about to see the largest
meteor shower we've had in over
fifty years!

METEOR FANS, wearing meteor-themed hats and costumes, fill
the streets behind Sam.

METEOR FANS
Woooo! / Yeah! / Meteors, man!

MAYOR GOODWAY is in the crowd.

MAYOR GOODWAY
I'm just so excited to see the
meteor Chickaletta!

CHICKALETTA pops out of her purse wearing a tiny meteor hat.

CHICKALETTA
Buckaw!

Sam swaps his regular glasses for a pair of novelty glasses
with light-up plastic meteors over the eyebrows.

SAM STRINGER
As you can see, it's meteor fever
out here, and everyone is turning
their eyes to the sky!

INT. PUP TOWER - LOOKOUT ROOM - NIGHT

The back of the pup tower dome is open, and a telescope is pointed into the night sky.

Rocky peers through the telescope and looks at the vast array of stars. Suddenly, Liberty's giant distorted face fills the frame.

ROCKY

Gah!

LIBERTY

See any meteors?!

REVEAL: Liberty is standing on a step stool, completely blocking the telescope. Rocky laughs.

ROCKY

All I can see is your giant head. III

LIBERTY

Oops. Sorry.

Rubble stands at the pup treat dispenser, filling a large bowl with pup treats. Chase waits for him.

CHASE

Come on Rubble, you're going to miss the meteor.

RUBBLE

Do you really expect me to watch a once in a lifetime celestial event without snacks?!

Rubble picks up the overflowing bowl of pup treats in his mouth and runs over to the telescope. As Chase walks past, Ryder notices something.

RYDER

Hey Chase, you've got a rip in your suit.

CHASE

I do?

Ryder runs his hand over a burst seam on Chase's vest.

RYDER

Yeah. Looks like you're too big for this thing already. You're all growing so fast!

Skye lights up.

SKYE

All of us? Even me?

RYDER

No... you're still pretty much the same size. But it's nothing to worry about Skye, all pups grow at their own speed.

Skye looks sad.

SKYE

(to herself)

And some of us never grow at all.

A buzzer sounds, and Ryder answers the intercom.

YOUNG VOICE

Hello?

III

RYDER

You're here! Great! Come on up!

(to the pups)

Pups, we've got company.

The elevator rises up and opens, revealing PICO, NANO, and DOT. These are the junior patrollers, three very young Pomeranian puppies dressed in pup scout uniforms complete with hats and sashes.

RYDER (CONT'D) (CONT'D)

I'd like you to meet the junior patrollers: Pico, Nano, and Dot. They're working on their astronomy merit badges, so I invited them to watch the meteor shower with us.

Pico, Nano, and Dot burst into the room, super excited. Pico runs up to Chase and gets right in his face.

PICO

You're Chase!

CHASE

Uh... Yep.

PICO

You're on the case!

Nano pops up in Rubble's face.

NANO

And you're Rubble! Cool glasses!

Rubble's wearing a pair of light-up meteor glasses, just like Sam Stringer.

RUBBLE

Thank you!

Dot runs up to Skye.

DOT
Wow! Skye! I'm almost as tall as
you!

Skye is a little put out, but tries to be friendly.

SKYE
Well, I'm definitely taller.

DOT
But not for long! III

RYDER
Why don't you guys check out the
telescope.

Pico, Nano and Dot run toward the telescope. They trip over each other and crash into it. Liberty dives in and catches it just before it smashes into the ground.

LIBERTY
Whoa! Slow down puffballs! This
thing is expensive.

PICO / NANO / DOT
Ooops! / Whoops! / Sorry!

Ryder laughs as he helps Liberty put the telescope back on its base.

RYDER
Take a look through the telescope
and tell us what you see.

The junior patrollers excitedly crowd around the eyepiece.

LIBERTY
Carefully look through the
telescope!

CAREFULLY!

Liberty walks up to Ryder.

LIBERTY (CONT'D)
Don't these pups seem a little
young to you? Maybe they should
come back in a couple years.

RYDER
Come on Liberty, everyone has to
start somewhere.

Nano gets a turn on the telescope.

NANO

Whoa!

EXT. ABANDONED OBSERVATORY - NIGHT

The camera tilts down from the starry night sky and lands on the abandoned observatory. The dilapidated building sits on a clifftop overlooking Adventure City. It's overgrown with vines, and sections of the roof are missing. The courtyard is filled with cracked tiles, and a run down old fountain. A chain-link fence surrounds the property with "KEEP OUT" signs hanging on it. III There's a light on inside...

INT. ABANDONED OBSERVATORY - NIGHT

Vee starts recording a video of herself on a cell phone. For the first time, we see her face.

VEE

Hello world! Hello universe!
Hello... Internet! My name is
Victoria Vance, and I'm making this
video as a permanent record of my
genius. All the boring people are
sitting around at home watching
tonight's meteor shower... But I've
got bigger plans.

Vee turns the camera on the Meteor Magnet.

VEE (CONT'D) (CONT'D)

My latest invention, the Meteor
Magnet, will grab one of those
meteors out of the sky and gently
deliver it to my doorstep.

Vee paces around the observatory.

VEE (CONT'D) (CONT'D)

All the so-called "experts" said my
invention was "too dangerous." They
called me a mad scientist. Well of
course I'm mad! You'd be mad too if
everyone laughed in your face and
said you were delusional.

Vee smiles confidently.

VEE (CONT'D) (CONT'D)

Well after tonight they're going to
eat their words. When I catch that
meteor, I'm going to become the
most famous scientist in the world.

Vee stares off into space, imagining her rise to fame.

VEE (CONT'D) (CONT'D)
I'll be on the cover of Science
Magazine.

FANTASY SEQUENCE: Vee's face is on the cover of science magazine. The headline reads "Move over Einstein!" III

VEE (V.O.)
They'll give me a Nobel Prize... Or
two!

Vee stands on stage, holding up a Nobel Prize medal as cameras flash. An arm reaches in and hands her a second medal.

VEE (V.O.) (CONT'D)
They'll build statues in my honor.

A cloth is pulled off a bronze statue of Vee.

BACK TO SCENE

Vee stares into the distance, lost in her fantasy. She snaps back to reality.

VEE (CONT'D)
Well what are we waiting for? Let's
fire it up! Three... Two... One--

Vee throws the main power switch on the Meteor Magnet. Nothing happens.

VEE (CONT'D) (CONT'D)
Excuse me a moment... I just need
to make some precise scientific
adjustments.

Vee kicks the side of the machine. The Meteor Magnet sputters to life.

VEE (CONT'D) (CONT'D)
There we go.

Vee sits down in a seat attached to the base of the machine. It's a re-purposed La-Z-Boy style recliner. She kicks up the footrest.

VEE (CONT'D) (CONT'D)
Now let's get ready to party!

Vee presses a button and the Meteor Magnet fires a beam of energy into the sky.

EXT. OUTER SPACE - CONTINUOUS

As a meteor rockets through outer space, the tractor beam locks on to it and pulls it off course, down toward Earth. III

INT. ABANDONED OBSERVATORY - NIGHT

Vee speaks into the camera, proud of her scientific breakthrough.

VEE

Ha! I have locked on to the meteor
and I'm reeling it in. I did it!
Me! Victoria Vance! Honestly, just
give me my Nobel prize already.

Vee struggles with the controls on the tractor beam.

VEE (CONT'D) (CONT'D)

Uh oh...

Suddenly alarm bells go off, and warning lights begin to flash. Vee turns serious.

VEE (CONT'D) (CONT'D)

The meteor is stronger than
expected.

She cranks up the power knob on the tractor beam.

VEE (CONT'D) (CONT'D)

I don't have enough power!

Suddenly the lights flicker and the power goes out. The observatory is plunged into darkness.

VEE (CONT'D) (CONT'D)

That's not good.

She runs over to the opening in the observatory roof and looks out toward Adventure City. The meteor is heading straight for it.

EXT. PUP TOWER - NIGHT

Rubble looks up and sees the meteor approaching.

RUBBLE

(mouth full)

There it is!

The pups all stare up at the meteor as it gets brighter in the sky. The junior patrollers take turns peering into the telescope eyepiece.

SKYE

I didn't think it would be so
bright. III

CHASE

It looks like it's headed straight
for us...

A warning alarm flashes on Ryder's pup pad.

RYDER
That's because... It is! We've got
to get those people out of the
street now!

INT. PUP TOWER - VEHICLE LAUNCH ROOM - NIGHT

Ryder and the pups run down the stairs and dive onto the vehicle launch ramp. They zip down it like a super slide.

RYDER
Get those people inside! Go! Go!
Go!

EXT. BASE OF THE PUP TOWER - NIGHT

The pups land at the bottom of the slide. They spread out, working together to get the meteor fans to safety.

CHASE
Everybody out of the street! You
need take cover right now!

A group of meteor fans turns and runs for cover.

Further down the street, Ryder runs up onto the roof of a parked car.

RYDER
Take shelter. There's a meteor
heading straight for us!

Mayor Goodway runs by. Chickaletta pops out of her purse, and looks back at the meteor. Her eyes bug out! She dives back inside the purse, leaving the meteor hat to fall to the ground.

CHICKALETTA
Buckaw!

The pups jump up onto mailboxes, and benches, herding more of the meteor fans out of the street. Zuma shouts at Sam Stringer who's still filming the meteor with his CAMERAMAN.

ZUMA
Dudes, you gotta boogie! This
meteor's about to get gnarly! III

They take off running.

A driver is drumming on the steering wheel with music blaring over the car radio. This is TONY. He's oblivious to the people running for cover.

TONY
 (singing with the
 radio)
 Doo, doo, doo! I want to Rock!
 Yeah! Rock! Yeah!

Rubble leaps up onto the hood of the car.

RUBBLE
 Stop rockin' and start rollin'!

Tony looks up and sees the meteor heading straight for them. He screams and hits the gas. Rubble leaps over the roof and lands on the ground. The last of the citizens run inside. The streets are empty.

ROCKY
 Street's clear!

ZUMA / SKYE / LIBERTY / MARSHALL
 Clear! / Clear! / Clear! / Clear!

RYDER
 Just in time.

Ryder turns to see the meteor hit the pup tower.

RYDER (CONT'D) (CONT'D)
 Take cover!

KABOOM! The meteor blasts through the tower, cutting it in half. Huge chunks of the tower fly in all directions. Ryder and the pups dive behind parked cars to take shelter from the explosion.

SLOW MOTION: The meteor hits the street, and rips through the road, digging a flaming trench behind it the length of three city blocks.

Dust fills the air and debris rains down on the street. Ryder stands up.

RYDER (CONT'D) (CONT'D)
 Is everybody okay?!

One by one, the pups pop out from their hiding places. III

ALL PUPS
 I'm good! / I'm okay! / Still in
 one piece!

Zuma walks out covered in dust and shakes himself off.

ZUMA
 I'm fine. But I'm going to need a
 serious bath!

Ryder looks panicked.

RYDER

Wait! Where are the junior
patrollers? Pico!? Nano!? Dot!?

SQUEAK! A mailbox opens and Pico, Nano, and Dot poke their heads out. Dot has a piece of mail in her mouth, she spits it out.

DOT

Whoa!

NANO

That was epic!

PICO

Does this mean we get our astronomy
merit badge?!

Ryder lets out a sigh of relief.

As the smoke begins to clear, they finally get a good look at the damage. The pup tower is destroyed. Only the base of it remains.

SKYE

The pup tower...

CHASE

It's completely destroyed.

Ryder stares at the smoking base of the pup tower.

ROCKY

Our home... Our vehicles...

MARSHALL

It's all... Gone.

Ryder hangs his head for a moment and then regains his composure. III

RYDER

The important thing is nobody got
hurt.

RUBBLE (O.S.)

Noooooooooo!

REVEAL: Rubble standing over the smouldering wreckage of the pup treat dispenser. Chase walks up and puts his paw on Rubble's shoulder.

CHASE

It's gonna be okay Rubble. They're
only snacks.

RUBBLE

Only snacks?! Can you even hear
yourself right now?!

Ryder walks up to the crater at the end of the street, and looks down at the smoking meteor. It's the size of a small car. Beneath its jagged, rocky surface the meteor emits a strange pulsing glow.

The pups walk up beside Ryder and stare down at the meteor.

MARSHALL

That little thing did all this?

The pup pad on Ryder's glove glitches out with every pulse of the meteor.

RYDER

This meteor is giving off some kind
of strange energy pulse. Let's get
it out of here until we find out
what's going on.

INT. NEWSROOM - NIGHT

The CHANNEL 9 NEWS graphic fills the screen.

Sam Stringer sits behind his anchor desk. The on-screen headline says "METEOR MAYHEM!"

SAM STRINGER

At approximately seven thirty one
PM, a meteor which was meant to
safely pass by the planet suddenly
veered off course, crashing into
Adventure City and causing massive
destruction. █

SAM STRINGER (CONT'D) (CONT'D)

The mad scientist and self
proclaimed genius, Victoria Vance,
took credit for the disaster
online.

A clip of Vee's internet video plays in a web browser.

VEE

Ha! I did it! Me! Victoria Vance!

SAM STRINGER (V.O.)

She was later arrested at the scene
of the crime.

The newscast cuts to FOOTAGE of Vee being arrested near the site of the meteor landing, and put into an Adventure City Jail van.

VEE

Don't you see what an incredible scientific achievement this is?! You should be celebrating me. I'm a genius!

BACK TO SCENE

SAM STRINGER

This reckless science experiment gone wrong has caused incalculable damage to Adventure City...

Someone hands Sam a piece of paper from off camera.

SAM STRINGER (CONT'D) (CONT'D)

Oh, this just in: I'm being told they were able to calculate the damage. It's forty four billion, two hundred seventy six million, eight hundred and fifty one thousand, two hundred and seventy six dollars and ninety one cents. Ooof. That ain't cheap.

INT. ADVENTURE CITY JAIL - NIGHT

Vee is processed at the Adventure City Jail.

- CLOSE UP of Vee being fingerprinted.
- FLASH! FLASH! FLASH! Vee smirks as her mugshots are taken.
- CLANG! A cell door closes, as Vee is locked inside. III

VEE

You think you can stop me?! They put Galileo in jail too you know!

Vee watches as the GUARD walks away. She slumps down on the edge of her bunk, defeated.

Suddenly, a voice pipes up from the top bunk above her head.

HUMDINGER

Hello roomie.

HUMDINGER leans over the side of the bunk, and smiles at Vee. He wears an orange prison jumpsuit, with matching orange top hat. He's surrounded by his six kitties.

EXT. AIRCRAFT CARRIER - NIGHT

Rocky drives up a ramp carrying the meteor on a forklift. Ryder and the other pups wait on the ship. The forklift hits a seam in the ramp, and the meteor rocks back and forth.

RYDER

Whoa! Take it easy Rocky.

ROCKY

This thing just blasted through three city blocks and didn't get a scratch. I think it can handle a tiny bump.

INT. AIRCRAFT CARRIER - HANGAR - NIGHT

The hangar is a huge room deep in the belly of the ship. It's filled with diagnostic equipment, vehicle hoists, and spare parts. On one end of the hangar is a huge door that opens to the outside.

Rocky lowers the forklift, setting the meteor down next to a diagnostic machine. Ryder and pups gather around it.

SKYE

It looks like it's stopped glowing.

CHASE

Maybe that's a good thing. The glowing freaks me out.

Ryder swings out a scanner arm from the diagnostic machine, and punches commands into the keyboard. A laser from the scanner arm begins to slowly work its way across the meteor. Computer screens light up with readings from the scanner. III

RYDER

We'll leave it scanning overnight and see what we can learn.

INT. AIRCRAFT CARRIER - SLEEPING QUARTERS - NIGHT

The pups lie in bunk beds that line the walls of the room. The junior patrollers are curled up in a dog bed on the floor.

RYDER

All right pups, time for bed!

Skye tries to jump up to the top bunk, but it's just out of reach. Her back legs flail as she tries to pull herself up.

RYDER (CONT'D) (CONT'D)

Need a little help there Skye?

SKYE

Nope! Nope! I got it.

Skye struggles and finally manages to pull herself up. Ryder walks to the door.

RYDER
Good night pups. If you need me,
I'm just down the hall.

RUBBLE
Ryder?

RYDER
Yeah?

RUBBLE
I miss the pup tower. I don't like
sleeping in new places. I'm never
going to be able to get to sleep.

RYDER
Well, we've all had a long day.
You're probably more tired than you
think--

SNORE! Rubble is fast asleep, mouth wide open and snoring.
The other pups giggle.

RYDER (CONT'D) (CONT'D)
See you in the morning.

Ryder switches off the light. III

EXT. AIRCRAFT CARRIER - NIGHT

The aircraft carrier sits quietly off shore. The water is
still.

WOOOOOOOOM. WOOOOOOOM. A low pulsing sound breaks the silence.
The water around the aircraft carrier ripples with each pulse
of the strange sound waves.

INT. AIRCRAFT CARRIER - SLEEPING QUARTERS - NIGHT

The pups are all fast asleep. Suddenly a faint pulsing glow
fills the room. Skye rolls away from the light, annoyed.

SKYE
Rubble, quit messing with the
light.

The light continues to pulse.

SKYE (CONT'D) (CONT'D)
Rubble!

She rolls over and sits up. Rubble is fast asleep. So is
everyone else.

SKYE (CONT'D) (CONT'D)
(to herself)
What is that?

Skye hops down to the floor and walks toward the door. She peers down the hall and sees the glowing light is coming from the hangar. She walks toward it.

INT. AIRCRAFT CARRIER - HANGAR - CONTINUOUS

The meteor sits in the middle of the room. It's glowing again, brighter than ever, and this time it's emitting a low vibrating sound with every pulse.

Skye walks toward the meteor. The screens on the diagnostic machine next to it are glitchy and scrambled.

Skye reaches out with her paw and touches the meteor. The glow fades, and the low vibrating tone disappears.

SKYE
Weird...

CRACK! The meteor splits apart, and the pieces crash to the floor. Skye jumps back. III

SKYE (CONT'D) (CONT'D)
I didn't do it!

A glowing crystal core sits in the middle of the broken meteor. The crystal core has split into seven equally sized shards. Skye reaches out and touches a shard of glowing crystal.

The fur on her ears stands on end. Then, her ears start to float up beside her head. Finally, her feet begin to float off the floor. She lets go of the crystal and lands back on the ground.

SKYE (CONT'D) (CONT'D)
No way...

Skye crouches down to look closely at the crystal. Tiny swirls of energy dance inside its crystalline structure. Suddenly the crystal slides along the floor and attaches to her collar, like some kind of magnet.

SKYE (CONT'D) (CONT'D)
Whoa.

Skye gently pushes off the floor and floats up into the middle of the room. She reaches out a paw, and starts to fly slowly in that direction.

Skye flies down to a huge metal shipping container. She lifts it over her head with ease.

SKYE (CONT'D) (CONT'D)
Looks like the smallest pup just
became the strongest pup!

Skye spins the container around with a flourish, and sets it down. Skye pushes off the floor and hovers up into the middle of the room.

SKYE (CONT'D) (CONT'D)
All right, let's see what this
thing can really do.

Skye thrusts out her arm in a heroic superhero pose. She immediately rockets across the hangar at an incredible speed.

SKYE (CONT'D) (CONT'D)
Whoaaaaaaa!

CRASH! REVEAL: Skye has smashed right through the steel wall, through the corridor, and into the sleeping quarters! III

INT. AIRCRAFT CARRIER - SLEEPING QUARTERS - CONTINUOUS

The pups are wide awake, staring in awe at the hole Skye has punched through the metal wall. Ryder runs in.

RYDER
What's going on?! Is everybody
okay?!

Skye looks up and smiles sheepishly.

SKYE
I think I've got... Superpowers!

Skye floats up into the middle of the room.

RYDER AND THE PUPS
Whoa!

Rubble rubs his eyes.

RUBBLE
This is the weirdest dream I've
ever had.

MARSHALL
Rubble, you're not dreaming.

RUBBLE
Oh... Then this is the weirdest
awake I've ever had.

INT. AIRCRAFT CARRIER - HANGAR - NIGHT

CLOSE ON: One after the other, the pups lean down next to the crystals. The crystals slide across the floor and attach to the pups' collars.

A yellow light begins to flicker on Marshall's face. He looks down to see his front paws are the source of the light. He lifts one of them up, and with a little gesture, a fireball dances above his paw.

MARSHALL

Whoa! It's some kind of fireball!

CHASE

Well that makes sense, you're a fire pup.

MARSHALL

I wonder what power you have.

Suddenly Chase is gone. III

CHASE

Marshall, up here!

Marshall turns and sees Chase on the other side of the hangar at the top of a staircase.

MARSHALL

How'd you get over there so fast?

There's a flash of blue light and suddenly Chase is standing over Marshall's shoulder.

CHASE

Get over where?

MARSHALL

Gah!

Marshall tumbles backwards and accidentally shoots the fireball across the room. Liberty ducks out of the way. The fireball hits a computer and it bursts into flames.

MARSHALL (CONT'D) (CONT'D)

Whoops!

LIBERTY

Oh great. Now the clumsy pup shoots fireballs out of his paws.

Zuma shoots a blast of water, dousing the flaming computer.

ZUMA

Dudes! I'm one with the water!

Zuma turns into water and splashes to the ground, then reforms into his regular self.

Rocky raises his paws and the forklift hovers off the ground.

ROCKY
Awesome! Check me out, I'm a
walking magnet!

Suddenly, a huge number of forks, spoons, and a tin can fly through the air and stick to Rocky's magnetized body, completely covering him.

ROCKY (CONT'D) (CONT'D)
I always knew I had a magnetic
personality!

Rubble curls up into a ball, surrounded by an energy field. He rolls past, crashing through some wooden crates. III

RUBBLE
Rock 'n roll!

Liberty stands on some boxes, rubbing her paws together... But nothing happens. Chase zips up beside her.

CHASE
What's your power Liberty?

LIBERTY
That's a good question. I'm trying
to figure it out. Okay, come on
baby, here we go. Superpowers on
three. One, two, three!

Liberty leaps off the boxes and crashes to the floor.

LIBERTY (CONT'D) (CONT'D)
Okay, okay, it's not the power of
flight. That's because it's...
Supersonic bark! Arf. Nope... Uhhh.
Lightning tail!

Liberty swishes her tail. Nothing happens. Liberty looks annoyed.

LIBERTY (CONT'D) (CONT'D)
What's going on here? I've got no
powers! What a rip off!

CHASE
Skye can fly. Marshall can control
fire. Zuma turns to water... It's
like these crystals amplify
something about you.

LIBERTY

But I'm just... Liberty. What's my thing?

Ryder watches all of the pups showing off their powers.

RYDER

This is gonna change everything...

RUBBLE

Now that we're super, we're going to need a new name for ourselves.

MARSHALL

Why do we need a new name? We're the PAW Patrol.

II

RUBBLE

I know, but now we're more. It's like we've got something just a little bit extra. Oooh, I know! How about we call ourselves "The PAW Patrol, but more, with just a little bit extra."

MARSHALL

Doesn't exactly roll off the tongue.

Ryder gets an inspired look in his eyes.

RYDER

How about... The Mighty Pups?

MIGHTY PUPS MONTAGE

UNIFORMS:

In silhouette we see close shots of the pups suiting up in their new uniforms. We only catch glimpses of detail and color.

- Sections of their super suits are attached.
- Paws slide into boots.
- Helmets lower onto their heads and goggles drop into place.
- New collars open, revealing a hidden compartment. A robotic arm places the crystals inside. Lines of energy emit from the collar and trace through the suits, illuminating the pups' silhouettes. Their paws begin to glow.

- The pups walk into the light in slow motion. They're finally revealed as... The Mighty Pups.

VEHICLES:

A garage door opens. The light spills across the surface of brand new vehicles. An SUV, a fire truck, a sleek new jet.

The pups slide into the driver's seats of their vehicles.

Skye looks at her glowing paws, then puts them down on the steering pad.

Power surges down the steering columns, through transparent passageways along the sides of the vehicles, bringing them to life.

The deck of the aircraft carrier begins to transform, splitting in half down the center into two parallel runways. ▯ Ramps deploy at the end of each runway, connecting them to the docks.

The vehicles rise up onto the deck. The junior patrollers watch in awe.

Launch accelerators latch on to the front of Chase's cruiser and Marshall's fire truck. They rev their engines.

COMPUTER VOICE

Chase. Marshall. Ready for launch
in five, four, three, two, one, go!

The accelerators kick in, launching the vehicles to top speed in a fraction of a second. They race off down the parallel runways like cars at a drag race. Skye and Rocky rise up onto the deck.

COMPUTER VOICE (CONT'D) (CONT'D)

Skye, Rocky... Go!

Skye and Rocky race off down the runways as the vehicle elevator brings Zuma and Rubble up and into position.

COMPUTER VOICE (CONT'D) (CONT'D)

Zuma, Rubble... Go!

Zuma and Rubble take off into the city.

Liberty walks up to Ryder who's sitting on his ATV.

LIBERTY

As you know, I didn't get any
superpowers... So I'm not totally
sure what to do here.

RYDER

Why don't you hang back with the
junior patrollers?

Liberty glances over to the junior patrollers who smile at her.

LIBERTY

Oh, that's not a good idea. I don't know the first thing about little kids.

RYDER

Don't worry Liberty, you're a natural. You'll be great at it. PAW Patrol is on a roll! III

The accelerator kicks in and Ryder zips off into the distance. Liberty is left standing on deck with the junior patrollers.

LIBERTY

Ryder?! Come back! I'm not built for babysitting!

MIGHTY PUPS RESCUE MONTAGE - VARIOUS LOCATIONS

- Sam Stringer sits behind his news anchor desk. As he speaks, we cut away to footage of heroic Mighty Pup rescues.

SAM STRINGER

When we think of "superheroes" we used to think of comic books and big budget Hollywood movies starring overpaid celebrities wearing tights. But now we know superheroes are real. They've arrived in Adventure City, and they call themselves The Mighty Pups.

- The pups race down the street. As they pass through an intersection, the pups break formation and spread out into the city.

- An elevated train has derailed off the tracks. Rocky runs up and uses his glowing green magnet paws to float the train back onto the track. The passengers inside the train cheer.

- A stranded WINDOW WASHER dangles off the end of a broken window washing platform fifty stories above the ground. Marshall slams his glowing paws down on his steering pad, deploying a massive energy ladder that extends to incredible length. The window washer jumps onto the ladder just in the nick of time as the platform gives way.

SAM STRINGER (V.O.)

Adventure City has never been safer thanks to these soft and fluffy, cute and cuddly, butt-kicking, super powered heroes.

- CAP'N TURBOT is in the middle of the ocean. Water is rushing in through a large hole in the bottom of his boat. Suddenly the boat lurches, and rises out of the water. Skye flies through the air, carrying the boat from underneath! She sets it down near the shore.

- A group of CONSTRUCTION WORKERS use sledgehammers to try and demolish the last remaining wall of a derelict building. It's backbreaking work. █ Suddenly Rubble arrives and deploys the giant glowing wrecking ball on the back of his bulldozer. He swings it around, and smashes out the wall in a single swing. The construction workers drop their sledgehammers aside and cheer!

- Sam Stringer walks along the docks of Adventure City. Crowds of MIGHTY PUP FANS behind him wear Mighty Pups t-shirts, hats, and accessories. The fans are waiting outside the aircraft carrier to get a glimpse of their heroes.

Sam puts on a Skye trucker hat with floppy cockapoo ears attached to the sides of it.

SAM STRINGER

The world can't get enough of the Mighty Pups! Thanks to the superpowers contained in that mysterious meteor, the Mighty Pups are truly unstoppable!

INT. ADVENTURE CITY JAIL - DAY

Vee and Humdinger watch Sam's news report on a TV mounted to the wall in the jail hallway. Vee hurls a roll of toilet paper at the TV.

VEE

That was MY meteor! Those should be MY superpowers! Argh! I can't stand those little mongrels!

HUMDINGER

I can't stand the PAW Patrol either. That's what makes us such perfect roommates.

VEE

Don't get too attached, I'm not going to be here long. As soon as I can find a way out of here, I'm going to get my meteor back.

HUMDINGER

Can you give us a minute? I need to discuss something in private with my colleagues.

Humdinger and the kitties huddle together in a flurry of whispers and meows. He turns to Vee. []

HUMDINGER (CONT'D) (CONT'D)
Okay, here's the deal. The kitties
and I have been planning a
jailbreak. We'll help you get out
of here if you promise to share
some of those superpowers with me.
Do we have a deal?

VEE
I don't really have a lot of
options right now, so sure. It's a
deal.

He sticks out his hand to shake.

HUMDINGER
It's only a deal if we shake on it.

Vee stares at Humdinger's hand for a moment, and then
begrudgingly shakes it.

HUMDINGER (CONT'D) (CONT'D)
We all shake on it.

REVEAL: All six kitties in a line, holding out their paws to
be shaken. Annoyed, Vee works her way down the line shaking
each individual kitty's paw.

HUMDINGER (CONT'D) (CONT'D)
Excellent. Excellent. Oh, that's
nice. Sealing the deal. Wonderful!
Now if you'll direct your attention
over there, I left you a little
surprise in the toilet.

Humdinger gestures to the toilet in their cell.

VEE
No thanks, I'm good.

HUMDINGER
Don't be shy, lift the lid!

Vee hesitantly goes over to the toilet and gingerly lifts the
lid.

ANGLE UP FROM INSIDE THE TOILET: Vee's disgusted face quickly
turns to a huge smile.

VEE
That's the most beautiful thing
I've ever seen!

HUMDINGER
It took me a lot of hard work. []

REVEAL: Humdinger has dug an escape tunnel down through the toilet, deep into the ground below.

INT. AIRCRAFT CARRIER - BRIDGE - DAY

The junior patrollers watch Sam Stringer's news report on the Mighty Pups.

SAM STRINGER (V.O.)
The Mighty Pups have incredible superpowers. They can fly, they have super speed, and one of them even turns into water.

Liberty stands at the back of the room still trying to figure out what her super power is. She touches the crystal in her collar.

LIBERTY
Okay, no more messing around. My super power is... X-ray vision!
(she squints)
Nope... Okay. Okay. Uhhhhh. Tornado paws!

Liberty runs around in a circle. All that happens is she ends up dizzy.

ON TV: The Mighty Pups assemble into a heroic team pose.

SAM STRINGER (V.O.)
Adventure City absolutely loves the Mighty Pups!

Liberty turns off the TV.

PICO / NANO / DOT
Hey!

NANO
We were watching that!

LIBERTY
I might not have superpowers, but that doesn't mean I can't contribute.

Liberty pauses for a moment.

LIBERTY (CONT'D) (CONT'D)
I can't believe I'm saying this... Are you three puffballs serious about joining the PAW Patrol one day? III

PICO
Yes!

NANO

Absolutely!

DOT

More than anything in the entire universe!

LIBERTY

Then you guys are going to be my personal project. I'm going to teach you everything I know and turn you into lean, mean, fluffy little rescue machines.

PICO / NANO / DOT

Wicked!

JUNIOR PATROLLER TRAINING MONTAGE

MUSIC UP (THINK A COOL, MODERN REMIX OF EYE OF THE TIGER.)

- On the deck of the carrier, Liberty demonstrates pushups for the junior patrollers. The pups try to copy her, but struggle to do a single pushup. Their legs give out, and they fall flat on their tummies.

- The junior patrollers run in a row on a treadmill. Liberty stands behind them, shouting through a megaphone. Suddenly Dot trips, knocking over her brothers. They shoot off the treadmill, crashing into Liberty. Liberty pops up, looking frazzled.

- The junior patrollers each stand in front of a fire extinguisher, wearing firefighter helmets that almost cover their eyes. Liberty reveals a burning candle. The junior patrollers squeeze the fire extinguishers, and the force of the spray blasts them across the room. Liberty shakes her head and blows out the candle.

- The junior patrollers rappel down the wall of the bridge on the aircraft carrier. Liberty stands underneath them, watching seriously and coaching them. Suddenly her eyes go wide as all three pups come tumbling down on top of her.

- Ryder walks up as Liberty has the junior patrollers running sprints on the deck of the aircraft carrier. She shouts into her megaphone.

LIBERTY

Move it puffballs! No pain, no gain! III

RYDER

Take it easy Liberty... Remember, the junior patroller program is just for fun.

LIBERTY
And there's nothing more fun than
realizing your full potential.
(into the megaphone)

I DIDN'T SAY STOP! MOVE IT! MOVE IT!

MOVE IT!

EXT. ADVENTURE CITY STREET - DAY

A manhole cover in the middle of the street slides open.
Humdinger pops his head out, surrounded by his six kitties.
He takes a deep breath.

HUMDINGER
Ah, the sweet smell of freedom!

HONNNNK! A car drives over him, knocking off his top hat.

HUMDINGER (CONT'D) (CONT'D)
Ahhh!

Vee, Humdinger and the kitties climb out onto the street.
Pedestrians take notice of their bright orange jumpsuits.

PEDESTRIAN 1
Is that Humdinger?

PEDESTRIAN 2
What's he doing out of jail?

Humdinger waves at them.

HUMDINGER
I hope I can count on your support
in the next election!

Vee grabs his waving hand and pulls it down.

VEE
Stop campaigning! We're fugitives
on the run!

HUMDINGER
Sorry, I forgot. It's just so nice
to be reunited with my adoring
public.

PEDESTRIAN 1
I didn't vote for you. III

PEDESTRIAN 2
Me neither! You were the worst
mayor this city's ever had!

Humdinger scowls.

HUMDINGER
(to Vee)
This is why I can't stand free and
fair elections.

VEE
We've got to keep a low profile
until we get those superpowers from
the PAW Patrol.

HUMDINGER
And how do you propose we do that?

VEE
We give them the one thing they
can't resist...

EXT. ADVENTURE CITY AIRPORT - DAY

Small private jets take off and land at the busy Adventure
City Airport.

INT. AIRPLANE HANGAR - CONTINUOUS

Vee, Humdinger and the kitties have ditched their prison
jumpsuits. Vee is dressed in a stylish but eccentric getup,
and Humdinger is wearing one of his trademark purple suits.

They walk into an airplane hangar. Each of the kitties wears
aviator sunglasses and pulls a tiny cat-sized rolling
suitcase with their tails hooked through the handle.

They stop in front of a purple private jet.

HUMDINGER
There it is. "Air Humdinger".

VEE
It's perfect.

Humdinger takes a handkerchief out of his pocket and wipes a
smudge off the body of the jet.

HUMDINGER
Oh I've missed you. I had
nightmares in jail about flying
coach. III

Humdinger kisses the side of the jet.

HUMDINGER (CONT'D) (CONT'D)
This plane is very special to me.

VEE

Clearly.

HUMDINGER

It's more than just an ostentatious means of transportation with a preposterous carbon footprint. I consider it a friend.

VEE

Don't worry, your tacky jet is in good hands.

HUMDINGER

Are you sure you know how to fly this thing?

VEE

Please. I'm a genius. I was flying planes like this when I was in grade school.

HUMDINGER

Mmmmm. Must have been a good school.

EXT. ADVENTURE CITY AIRPORT - DAY

The wheels of Humdinger's jet race along the runway, then lift off and retract as it takes off into the sky.

INT. HUMDINGER'S JET - CABIN - DAY

Humdinger reclines in one of the seats in the cabin. He grabs a bag of pretzels from the snack cart.

HUMDINGER

Well Vee, you're not a bad pilot after all. Very smooth, no bumps.

Vee switches the jet to auto-pilot and comes back into the cabin. She walks past the kitties, who are all wearing headphones and watching in-flight movies.

VEE

Now we just fly around until the PAW Patrol comes to rescue us. III

HUMDINGER

Why would they come rescue us?

Vee opens the emergency exit door, and wind whips through the cabin. Humdinger's top hat is sucked out the door.

HUMDINGER (CONT'D) (CONT'D)

Gah!

Vee takes the snack cart and heaves it out the door. It flies backward and is sucked into one of the jet's engines, which explodes in a fireball!

HUMDINGER (CONT'D) (CONT'D)
What are you doing?!

VEE
Now we're in trouble. They'll have
to come rescue us.

HUMDINGER
(horrified)

THAT WAS YOUR PLAN?!

Vee is proud of herself.

VEE
Uh huh.

Humdinger looks panicked.

HUMDINGER
You could've told me that before we
were CRUISING AT AN ALTITUDE OF

TWENTY THOUSAND FEET!

VEE
Sit down and eat some pretzels
while I go yelp for help.

EXT. AIRCRAFT CARRIER - DECK - DAY

The junior patrollers run on the treadmill. Dot trips again, but this time, her brothers jump over her and she pops up at the end of the line. Liberty watches proudly.

LIBERTY
Ha ha! Did you see that? They're
getting it! These little pups are
legit!

Ryder walks by laughing. ■■■

RYDER
I'm happy for you Liberty, but
maybe it's time for a break. What
do you think?

LIBERTY
Do you guys want a break?

The junior patrollers answer in unison.

PICO / NANO / DOT
We don't need no stinkin' break!

LIBERTY
That's what I'm talking about
puffballs!

Ryder's pup pad rings. Ryder answers.

RYDER
PAW Patrol, what's your emergency?

Vee's voice crackles over the speaker.

VEE (O.S.)
Mayday, Mayday! This is flight
HD9904, we need immediate
assistance. We have an engine out
and we are losing altitude!

RYDER
Hang tight, we're on our way!

INT. AIRCRAFT CARRIER - VEHICLE HANGAR - DAY

Ryder and the pups run into the vehicle storage hangar,
wearing their uniforms.

RYDER
This is an air rescue. Chase,
Marshall, Zuma, you go with Skye in
her jet.

Skye, Chase, Marshall and Zuma run over to Skye's new jet.
Rocky stands beside it on a ladder. There are multiple hoses
connected to the jet.

SKYE
What's going on?

ROCKY
It's still fueling up. We'll be
clear for takeoff in a few minutes.
III

RYDER
A few minutes could make all the
difference.

Ryder turns to Skye.

RYDER (CONT'D) (CONT'D)
Skye, I need you to fly up there
and carry that plane down safely.
Are you up for it?

Skye hovers off the ground with a determined look.

SKYE

I'm a mighty pup. I was made for this!

RYDER

We'll provide ground support. Let's go pups.

SKYE

Let's take to the sky!

Skye blasts out of the hangar.

EXT. SKY - DAY

Skye flies up high above the ocean. She spots Humdinger's jet leaving a trail of black smoke through the sky. She zips off toward it.

INT./EXT. HUMDINGER'S JET - DAY

The engine of the jet is glowing red, spewing smoke out behind it. Skye flies into the open doorway and hovers inside.

SKYE

Cut the engines, and I'll carry the plane down safely.

Humdinger stands up from his seat, wearing a parachute and looking smug.

SKYE (CONT'D) (CONT'D)

Humdinger?!

HUMDINGER

And here you are! It worked exactly like she said it would. III

SKYE

Like who said it would?

VEE

Me!

Vee yanks off Skye's collar. Without powers, Skye stops hovering and drops down to the floor of the jet.

SKYE

What?!

VEE

I can't believe they sent the littlest pup. It's like taking candy from a baby.

SKYE
Give that back!

VEE
What, this? Come and get it.

Vee dangles the collar over Skye's head, just out of reach. Skye jumps for it, but Vee yanks it away, taunting her and laughing.

VEE (CONT'D) (CONT'D)
You want your collar back? TOO BAD!
Catch you 'round pipsqueak! Ha ha
ha ha!

Vee jumps out of the open door.

Humdinger shuffles past Skye followed by his six kitties, all wearing little backpacks and skydiving goggles.

HUMDINGER
Thank you for flying air Humdinger!

They leap out of the jet and their parachutes deploy.

Skye shoots a glance at the burning engine.

Suddenly the plane starts to nose dive, going almost vertical. It spirals downward as Skye struggles to climb down to the cockpit.

INT. HUMDINGER'S JET - COCKPIT - CONTINUOUS

Skye pulls on the flight stick and levels out the plane. III
The control panel of the plane looms over her, she can't see out the windshield. She's flying blind. Skye flicks a switch and talks into the radio.

SKYE
Ryder come in, this is Skye!

RYDER (O.S.)
How's it going up there?

SKYE
It was a trap! They stole my
collar, I've got no powers, and
this plane is going down!

RYDER
Where are you right now?

The dials are flashing and spinning on the control panel. Skye jumps up and down, trying to see out of the cockpit.

SKYE

The instruments are going crazy,
and I can't get a visual. Hang on!

Skye wedges herself between the wall and the back of the pilot's seat. She kicks it as hard as she can with her legs.

CRACK! The hinge on the back of the seat breaks. It folds down flat, doubling the height of the seat. Skye jumps up onto it, finally able to see out the windshield.

SKYE (CONT'D) (CONT'D)

That's better.

EXT. ADVENTURE CITY - STREETS - DAY

Ryder and the other pups race through the city.

RYDER

Can you make it back to the
airport?

SKYE

Negative! It's too far! I need a
place to land this thing, now!

RYDER

Copy that. We'll have to improvise.

Ryder and the pups make a hard turn, skidding down a side street. ■■■

EXT. ADVENTURE CITY - MAIN STREET - DAY

The longest, busiest street in Adventure City is filled with shoppers, flashy theater marquees, and tons of traffic.

Suddenly the PAW Patrol arrives, sirens blazing. Cars start to pull over and get out of the way.

RYDER

Skye, we're clearing a runway. I
need you to set a course for Main
Street.

IN THE JET

SKYE

Did you say Main Street?!

RYDER (O.S.)

Affirmative.

SKYE
That's the busiest street in
Adventure City!

BACK ON THE
STREET

Ryder takes off his helmet and looks down the length of the street. The pups are herding people out of the way.

RYDER
It's also the longest.

SKYE (O.S.)
You better get that street clear,
'cause I'm coming in hot and this
landing is not going to be pretty.

RYDER
Alright pups we need to make a
runway and we don't have much time!

Marshall honks the horn on his fire truck.

MARSHALL
Let's move it people! You don't
have to go home, but you can't stay
here.

Ryder looks down the road through his binoculars, and spots a CONSTRUCTION CREW standing around a giant hole in the middle of the street.

RYDER
Rubble, we've got a hole in our
runway. Fill it in fast! III

RUBBLE
Rubble on the double!

Rubble drives off toward the hole in the road. Ryder looks through his binoculars and sees the smoking jet approaching in the distance.

RYDER
Chase! Mark the runway! All the way
down!

CHASE
Chase is on the case.

Chase hits the gas in his SUV.

CHASE (CONT'D) (CONT'D)
Arf! Flares!

Flares shoot out the back of his car, lining the sides of the road. He's fast, but not fast enough. Chase throws a switch, and his SUV transforms into a hyper car.

CHASE (CONT'D) (CONT'D)
Arf! Hyper car!

Chase slams his paws down on the steering pads, and a flash of energy surges through the car. The car drops down low to the ground, spoilers pop out from the sides, and a huge rocket engine blasts out the back.

FWOOOOOSH! In a blue flash, Chase's vehicle disappears down the street, leaving flares behind him as he goes.

Chase has driven the full length of the street in less than a second. He hits a switch, and transforms back into SUV mode. He skids into the intersection at the end of the runway.

CHASE (CONT'D) (CONT'D)
This intersection is closed.

On foot, Chase zips back to Ryder in flash, passing Rubble on the way.

Rubble races toward the hole in the road. A huge pile of dirt sits on one side of the hole. The construction workers notice Rubble heading toward them.

RUBBLE
Alright everyone, take the rest of
the day off!

III

The construction workers get out of the way as Rubble slams his dozer into the pile of dirt at full speed.

Rubble begins to push the dirt into the hole with the steamroller on the front of his dozer.

RYDER (V.O.)
Hurry up Rubble. Skye's on final
approach!

RUBBLE
I'm going as fast as I can!

INT. HUMDINGER'S JET - CONTINUOUS

Skye fights with the controls as the jet rattles and shakes on the way down.

SKYE
Alright. Let's do this.

Skye lowers the landing gear. One of the wheels is damaged and doesn't lock into place.

INT. OFFICE TOWER - YOGA STUDIO - DAY

A YOGA INSTRUCTOR sits cross legged at the front of a class. Tranquil music plays. The instructor's eyes are closed and she speaks in a calming voice.

YOGA INSTRUCTOR
Close your eyes. Let go of all your stress. Just listen to the calming sound of my voice--

ROOOAR! The purple jet flies by at window height, leaving a trail of smoke behind it.

YOGA INSTRUCTOR (CONT'D) (CONT'D)
Ahhhhhhhhh!

EXT. ADVENTURE CITY - MAIN STREET - DAY

Ryder ducks as the jet flies directly over his head. The wings fill the width of the street.

RYDER
Bring it down, nice and easy... III

The jet flies through strings of lanterns hanging across the street. The lanterns rip off the buildings, sparking and dragging behind the jet.

IN THE COCKPIT

SKYE
Come on baby... Soft landing. Soft landing.

BANG! Skye touches down hard. The landing gear collapses, and sparks begin to shoot off the bottom of the jet.

SKYE (CONT'D) (CONT'D)
Okay. Hard landing.

Skye throws a switch and the engines shut down.

SKYE (CONT'D) (CONT'D)
Shutting down the engines!

Rubble finishes filling in the hole. He looks up and sees the plane sliding right toward him. Rubble switches his dozer into leap mode and hovers out of the way of the oncoming plane.

He lands in front of the construction workers who burst into cheers.

CONSTRUCTION WORKER
I gotta get me one of those!

A panel rips off the wing of the jet and fuel starts pouring out behind it. Finally the jet grinds to a stop.

IN THE COCKPIT

Skye falls back into the seat, exhausted.

SKYE
Touchdown.

OUTSIDE THE JET

Ryder looks through his binoculars at the landing site.

RYDER
Okay, she's down.

Ryder spots fuel pouring out onto the ground.

RYDER (CONT'D) (CONT'D)
Oh no, the plane's leaking fuel-- III

Just then one of the sparking paper lanterns falls off a building and lands on the trail of fuel, igniting it. The flames race down the trail of fuel toward the jet.

RYDER (CONT'D) (CONT'D)
Skye get out of there!

Chase's eyes go wide, and he leaps into action. In a blue flash, he takes off running toward the jet.

SLOW MOTION: From Chase's POV the world is frozen. Smoke hangs still in the air. Falling debris hovers in place.

Chase runs at full speed. The flame continues to race toward the jet. Chase passes the flame, and jumps into the jet through the open door.

The flame reaches the fuel tank. KABOOM!

Chase grabs onto Skye's vest with his teeth, and pulls her out of the pilot's seat.

The fireball moves down the fuselage. Seats are blasted into the air. Chase pulls Skye out the open door of the jet. The fireball is inches away.

END SLOW MOTION

KABOOOM! The jet explodes. Ryder watches in shock.

RYDER (CONT'D)
Chase! Skye!

CHASE (O.S.)
Come on. You think that fireball is
faster than me?

REVEAL: Chase and Skye standing beside Ryder. Ryder drops to his knees and hugs them both tightly.

RYDER
That was too close.

Citizens come back onto Main street to take in the spectacle. Marshall sprays down the plane. The fire is out. For now, everyone is safe.

EXT. AIRCRAFT CARRIER DECK - DAY

The pups climb down from their vehicles and walk toward the bridge. They all look defeated. Liberty and the junior patrollers run out to greet them excitedly. III

LIBERTY
How'd it go?

ZUMA
Not good.

LIBERTY
Come on, you guys are the Mighty
Pups. How bad could it be?

MARSHALL
It was a trap. Skye's crystal was
stolen.

LIBERTY
Oh. So really really not good.

The junior patrollers share a worried look.

EXT. AIRCRAFT CARRIER DECK - BACK OF THE SHIP - DAY

Skye sits alone, staring out at the water. Chase walks up and sits down beside her.

SKYE
Thanks for saving me back there.

CHASE
Of course. You know I've always got
your back.

SKYE
I can't believe I lost my crystal.

CHASE
It was an ambush. It could have happened to any one of us.

SKYE
But it didn't. It happened to me.

Skye exhales.

SKYE (CONT'D) (CONT'D)
When I was born, I was the runt of the litter. Do you know what that means?

CHASE
That you were the smallest?

SKYE
The smallest and the weakest. III

CHASE
So?

INT. BARN - DAY - [FLASHBACK]

It's autumn. The leaves are turning. A FARMER pours a bag of kibble into a big bowl. A litter of cockapoo puppies run up, pushing each other out of the way as they wolf down the food.

SKYE (V.O.)
It's not easy being the smallest...
You learn pretty early on that everything's going to be harder for you.

The other puppies clear out, revealing BABY SKYE standing in front of the empty bowl. Only a single piece of kibble is left.

A COUPLE arrive to adopt a puppy. The pups all jump up excitedly. Skye tries to push her way to the front, but gets knocked back and lost in the crowd. The couple picks one of the bigger puppies.

It's winter now, and the ground is covered in snow. There's not many puppies left. Skye watches through a crack in the side of the barn as Ryder pulls up on a snowmobile. He's towing a sled behind it, piled with boxes for delivery. Ryder carries a box over to Farmer Dan.

FARMER DAN
Thanks Ryder! Sure I can't interest you in another pup?

Ryder laughs.

RYDER

No thanks. I've got all the pups I can handle.

SKYE (V.O.)

Eventually I realized that if I wanted a better life... I needed to take matters into my own hands.

Skye squeezes her tiny body through the crack in the barn, and disappears outside.

EXT. COUNTRY ROAD - DAY

Ryder drives his snowmobile through a blizzard. [REVEAL: Skye hides between the boxes, shivering in the cold. The snowmobile hits a bump, and she slides off, tumbling into the snow. She looks back, and can see the faint outline of the barn in the distance. In the other direction, a snowmobile track, leading into a blanket of white.

She turns toward Ryder's snowmobile track and begins to walk into the storm.

Through a series of dissolves, we see baby Skye battling against the storm. Each step is more difficult than the last.

Finally, in the distance, the Adventure Bay pup tower comes into view. Skye stumbles and falls down into the snow. She's too exhausted to get up.

Skye's eyes flutter. She sees a blurry silhouette above her. It's Ryder. He kneels down, and picks her up.

RYDER

I've got you. It's okay. Let's get you out of the cold.

[END FLASHBACK]

SKYE

I shouldn't even be in the PAW Patrol. Ryder didn't want another pup. And if he did, he sure wouldn't have picked one as small as me.

CHASE

I had no idea...

SKYE

And now, you're all growing so much faster than I am.

(MORE)

SKYE (CONT'D)
I feel like I'm getting left
behind, all over again.

Skye stares out at the water.

SKYE (CONT'D)
When I had superpowers, for the
first time in my life, I didn't
feel like the smallest and the
weakest.

Chase looks at her sympathetically.

SKYE (CONT'D)
I'd do anything to get that crystal
back.

III

EXT. AIRCRAFT CARRIER DECK - DAY

The junior patrollers expertly rappel down the side of the
bridge. When they land, Pico grabs a fire extinguisher while
Nano and Dot brace him from behind. Pico squeezes the handle
and blasts out the candle.

Liberty stands nearby looking at a stopwatch.

LIBERTY
Amazing! That's your best time yet.

Ryder walks up.

RYDER
Hey Liberty, can I talk to you?

LIBERTY
Okay puffballs. Take five. Better
yet, take zero. Do some push ups.

PICO / NANO / DOT
Awoo awooo!

They drop to the ground and start doing push ups. Ryder leads
Liberty around the far side of the bridge.

LIBERTY
I'm telling you Ryder, these
puffballs are the real deal.

RYDER
Liberty... We've got to end the
junior patroller program.

LIBERTY
What?

RYDER

It's too dangerous. Skye's superpowers have fallen into the wrong hands, and we have no idea what's coming.

LIBERTY

But... But... The puffballs can help. Sure they're little but I've heard you say, "No pup's too small" like a million times!

She looks at Ryder hopefully. III

RYDER

I know the junior patrollers mean the world to you. But for now, we need to keep them safe. That means we need to send them home.

Liberty is heartbroken.

RYDER (CONT'D) (CONT'D)

Do you want to tell them, or should

I?

Liberty gathers herself.

LIBERTY

No. They're my squad. I should be the one to tell them.

DOT

Tell us what?

Liberty turns to see the three junior patrollers peeking out from the side of the bridge. She looks at them stoically.

LIBERTY

Pups, what I'm about to say is going to be difficult to hear, but I need you to be strong.

Liberty bursts into tears and runs off.

LIBERTY (CONT'D) (CONT'D)

I can't do it! It's too sad!

RYDER

(to himself)

Okay... I guess I'm telling them.

Ryder crouches down next to the junior patrollers.

RYDER (CONT'D) (CONT'D)
Pico, Nano, Dot. I've got some
tough news... I'm ending the junior
patroller program.

NANO
What? No.

RYDER
I'm sorry. Hopefully we can start
it again when things are safe.

PICO
When is that going to be? III

Ryder looks worried.

RYDER
I don't know...

INT. ABANDONED OBSERVATORY - DAY

Vee throws open the door to the observatory. Humdinger and the kitties follow behind her.

Vee brushes everything off a workbench, knocking it to the floor. She sets down Skye's collar and opens it, carefully removing the crystal. It reflects in her eyes.

VEE
Finally! I wonder what my
superpower will be...

Vee attaches the crystal to her necklace. Small bolts of purple energy crackle from her fingertips.

VEE (CONT'D) (CONT'D)
Ooh. It tingles.

She closes her eyes and holds out her hands. Vee floats off the ground, into the center of the dome-shaped room.

HUMDINGER
Well you don't see that every day.

ZAP! Vee extends her hands and shoots energy from her fingertips. The energy bounces off the walls of the room like a plasma ball.

VEE
This is incredible. I can feel the
energy surging through me! Jazz
hands!

Humdinger crouches down behind a work bench. The static electricity puffs up his mustache.

HUMDINGER

Would you please stop zapping
everything?! The static electricity
is ruining my mustache!

KITTY (O.S.)

Reowr.

Humdinger looks over at the kitties, and their fur is puffed
up from the static electricity. III

HUMDINGER

And look what it's done to the
kitties!

Vee stops shooting energy, and floats back down to the Meteor
Magnet. As she touches the controls, power surges through her
hands and into the machine. It spins faster and faster.

VEE

I've finally got enough power to
catch all the meteors I want.

HUMDINGER

Why on Earth do you need more
meteors?

VEE

You saw what was inside the first
one. Who knows what the others
contain? I won't just be the
greatest scientist in the world...

Vee turns back to the controls.

VEE (CONT'D) (CONT'D)

I'll be the greatest scientist...in
history.

A super powerful blast of energy shoots into the night sky.

INT. AIRCRAFT CARRIER - BRIDGE - NIGHT

Ryder stands over the hologram map of the city. Skye walks
onto the bridge.

SKYE

Ryder... I'm sorry I lost my
crystal.

RYDER

It's not your fault. I never should
have sent you up there alone.

SKYE

I just keep thinking, if I wasn't so small I could've stopped them from taking it.

RYDER

We're going to get it back. I've set the computer to scan the city sector by sector, looking for the energy signature of the crystal. III

Skye hops up on a chair and watches the hologram map continue to scan.

SKYE

Just say the word, I'm ready to go.

Ryder looks at Skye hesitantly.

RYDER

Skye... I'm going to need you to stay behind on this mission.

SKYE

What?

RYDER

You don't have superpowers any more.

SKYE

But... But... I have to do something.

RYDER

My job is to keep you safe. Until we get that crystal back, I need you to stay here.

SKYE

That's not fair...

RYDER

I'm sorry Skye, but my decision is final.

Ryder reaches down to pet Skye, but she pulls away. He stands up and sighs.

RYDER (CONT'D) (CONT'D)

Try and get some rest.

He walks out of the bridge. Skye looks up at the map as it continues to scan.

INT. AIRCRAFT CARRIER - BRIDGE - LATER

Skye's eyes are heavy, and she begins to nod off. PING! The computer has found something.

Skye sits up with a start. The crystal's energy signature has been located at the abandoned observatory on the edge of the city. Skye quickly shuts off the hologram map and takes off running. ■■■

INT. AIRCRAFT CARRIER - HALLWAY - NIGHT

Skye runs down the hallway and stops in front of Ryder's room. He's fast asleep. Skye hesitates for a moment, then continues down the hall.

INT. AIRCRAFT CARRIER - SUIT UP ROOM - NIGHT

The mighty pup uniforms are silhouetted behind walls of frosted glass.

Skye presses a button and the frosted glass opens, revealing the uniforms. In front of each is a pedestal with each pup's crystal perched on top.

Skye stands up on her hind legs, and Chase's crystal magnetizes to her collar. She looks at the other crystals.

SKYE

If I'm going to get my crystal
back, I'm going to need all the
power I can get.

CLOSE ON: Quick cuts of the remaining crystal pieces attaching to Skye's collar. The crystals fit together perfectly except for the one missing piece.

Skye begins to glow brighter and brighter as the power surges through her.

SKYE (CONT'D) (CONT'D)

Whoa... That's way more power!

EXT. CLOUDY SKY - NIGHT

Skye flies her jet off into the night, leaving the aircraft carrier behind.

SKYE

I'll have these crystals back
before anyone knows they're gone.

She flies through the clouds over Adventure City. Her radar shows her closing in on the observatory.

Skye drops down below the clouds and spots the observatory in the distance.

SKYE (CONT'D) (CONT'D)
Gotcha.

III

EXT. ABANDONED OBSERVATORY - NIGHT

Skye lands quietly out of sight of the observatory. She climbs out of her jet and sneaks toward the building.

INT. ABANDONED OBSERVATORY - NIGHT

Skye opens the front door. Everything is still. She quietly steps inside. The building looks empty.

REVEAL: Vee is fast asleep in the recliner at the bottom of the Meteor Magnet.

Skye spots Vee and the crystal around her neck. Skye creeps toward her. She carefully climbs over the creaking computer screens trying not to make a sound.

Skye reaches for the crystal around Vee's neck. Suddenly Vee's eyes snap open.

Vee flips backwards out of the recliner and fires a blast of energy. Skye dodges it and tumbles to the ground. Vee flies out through the domed roof of the observatory. Skye scrambles to her feet and flies up after her.

EXT. CLOUDY SKY - NIGHT

Skye looks around but the clouds are too thick to see anything.

SKYE
Where are you?

VEE (O.S.)
I'm over here.

Skye turns toward the voice but all she can see are clouds.

VEE (O.S.) (CONT'D) (CONT'D)
Or am I over here?

The voice comes from a totally different direction. Skye spins toward it, but still can't see anything.

VEE (O.S.) (CONT'D) (CONT'D)
Or am I right behind you?

Skye spins around and blasts away all the clouds with a shockwave, revealing Vee. Vee laughs. ▯

VEE (CONT'D)
I bet those crystals make you feel
big and strong. But it doesn't
change the fact that you'll always
be the smallest pup.

Anger flashes across Skye's face. Vee drops down out of the sky, flying into the nearby woods. Skye chases after her, weaving between trees at incredible speed.

VEE (CONT'D) (CONT'D)
Is that really as fast as you can
go?

Skye grits her teeth and flies faster, gaining on Vee.

VEE (CONT'D) (CONT'D)
Do you need me to slow down so you
can keep up?

Skye looks furious, and pushes herself to the limit.

SKYE
Ahhhhh!

WHAM! Suddenly Skye slams to a stop. She's flown into energy force field. Vee comes out from behind a tree, smiling at Skye. Purple energy swirls around Skye, trapping her.

VEE
You're so predictable.

SKYE
Let me go!

VEE
Not so super inside a force field,
are you?

INT. ABANDONED OBSERVATORY - NIGHT

Vee floats Skye into the building. Skye struggles to escape but there's nothing she can do.

VEE
Don't feel bad for losing. People
have been underestimating me my
whole life.

Vee floats the crystals off Skye's collar and into her hand.

SKYE
No!

III

Vee puts the crystals onto her necklace. As they join together they glow brighter than ever. Swirls of energy course through Vee's body.

VEE

Ooooh. What a rush!

Vee floats Skye into a small room. She snaps her fingers, and Skye drops to the floor. Vee closes the heavy portcullis-style steel door and locks it.

VEE (CONT'D) (CONT'D)

Now that you've seen this place, I can't exactly let you go scurrying back to your little puppy pals, can I? Thanks for the crystals though.

Vee sits down at the Meteor Magnet.

VEE (CONT'D) (CONT'D)

Time to put all this power to work.

Vee slams her hands down on the controls and energy surges from the crystals around her neck into the machine. The power of the crystals causes the Meteor Magnet to spin faster than ever. Huge pulses of energy blast into the sky.

EXT. OUTER SPACE - CONTINUOUS

A cluster of meteors hurtles through deep space. Suddenly the pulses of energy from the Meteor Magnet hit them and pulls them off course.

INT. ABANDONED OBSERVATORY - SKYE'S CELL - CONTINUOUS

Skye watches Vee sitting at the controls of the Meteor Magnet.

VEE

This is incredible! So many meteors! Pew! Pew! Pew! Collect them all!

On screen we see dozens of meteors heading toward Earth.

Skye is horrified.

SKYE

Stop! What you're doing is dangerous. People could get hurt.

Vee takes her hands off the machine. The Meteor Magnet stops glowing. Vee stands up and walks toward Skye's cell. III

VEE

I tried to do things the right way but no matter how good I was, I was swept aside, passed over, and laughed at. So I took matters into my own hands. I promised myself I'd never let anyone make me feel small and insignificant ever again.

SKYE

I'm sorry that happened to you. That must have felt awful.

VEE

Pft! What would you know about anything? You're just a dog.

Vee starts to walk away.

SKYE

I know what it's like to feel small and insignificant. Like you have to work twice as hard as everyone else just to prove you belong.

Vee stops and softens.

SKYE (CONT'D) (CONT'D)

That's why I risked everything to try and get my crystal back. But all I did is make things worse. It turns out I am too small to make a difference.

Vee looks at Skye with compassion. Suddenly Vee's mood darkens.

VEE

Ooh, that was good! I know what you're trying to do. We have a little bonding moment, I get all soft and blubbery, then I have a change of heart and let you go. Well it's never going to happen.

Vee turns her back on Skye and walks to the Meteor Magnet. Humdinger and the kitties walk in.

HUMDINGER

Who are you talking to? Ooooh, is that Skye? You didn't tell me we had a guest!

III

SKYE

Humdinger!

VEE

She was kind enough to bring me the rest of the crystals. Aren't they beautiful?

HUMDINGER

Now remember, we had a deal. One of those crystals is mine.

Vee glares at Humdinger.

VEE

But I'm sure you'd agree, they look so much better on me.

HUMDINGER

It's not fair! Everyone's been super but me. It's my turn. MY TURN! Mine, mine, mine!

VEE

Ugh. Fine. A deal's a deal.

Vee takes a crystal off her necklace and tosses it to Humdinger. He fumbles it, and it bounces off the ground. It attaches to one of the kitties' collars and begins to glow.

KITTY

(deep voice)

Oh my goodness! I can talk! I have so much to say!--

Humdinger snatches the crystal from the kitty.

HUMDINGER

Give me that!

KITTY

Meow?

Humdinger rubs the crystal like a magic lamp.

HUMDINGER

How do I turn this thing on? Come on superpowers!

Skye watches from her cell. Suddenly Humdinger starts to grow and grow and GROW! Before long he's out of sight, and all she can see is one of his giant feet which has grown to the size of a school bus. III

VEE

That's incredible...

Humdinger's voice booms from above.

HUMDINGER (O.S.)

Oooh. I always knew I'd make it big in Adventure City. Now if you'll excuse me, I have to pay a visit to the PAW Patrol. Those pups and I have got some unfinished business.

SKYE

Oh no...

Humdinger's giant foot disappears out of view as he walks off toward the city. The building shakes with every step.

Skye slinks back from the bars into a dark corner of the room.

EXT. AIRCRAFT CARRIER - MORNING

The aircraft carrier sits peacefully in the calm water next to the docks of Adventure City.

INT. AIRCRAFT CARRIER - SLEEPING QUARTERS - MORNING

Chase wakes up, and sees that Skye's bed is empty. He has a worried look on his face.

CHASE

Skye?

EXT. AIRCRAFT CARRIER - HANGAR - MORNING

Chase runs into the hangar and looks out at the vehicles. Skye's jet is missing.

CHASE

RYDER! Skye's gone!

INT. AIRCRAFT CARRIER - SUIT UP ROOM - DAY

Ryder talks into his radio, he looks worried.

RYDER

Skye, this is Ryder, come in.

There's no answer, only static. ■■■

RYDER (CONT'D) (CONT'D)

Skye, this is Ryder. Do you read me?

Ryder pulls up the hologram map. It's locked on to the abandoned observatory.

RYDER (CONT'D) (CONT'D)
It looks like the computer found
the missing crystal. She must've
gone after it.

CHASE
Oh no...

RYDER
Come on pups, Skye needs our help.

Ryder presses a button and the frosted glass doors open,
revealing the uniforms and empty pedestals.

ROCKY
Uhh. Where are the crystals?

RYDER
Skye must have taken them...

RUBBLE
Why would she do that?

CHASE
More crystals means more power and
she knew what she'd be up against.

ZUMA
How are we supposed to help Skye if
we don't have our superpowers?

RYDER
Looks like we're doing this old-
school.

Liberty steps forward.

LIBERTY
Then I'm coming with you.

EXT. AIRCRAFT CARRIER - DECK - DAY

Ramps from the aircraft carrier extend onto the shore, as the
cheering crowds of fans watch with anticipation.

The vehicle elevator lifts Marshall and Chase into launch
position onto the deck. III The accelerator mechanism locks
into the bottom of their vehicles. Marshall and Chase share a
look and rev their engines.

COMPUTER VOICE
Marshall, Chase... Go!

The accelerator kicks in, and whips them forward at
incredible speed.

CHASE / MARSHALL
Awwoooo, awwoooo!

Chase and Marshall take off down the parallel runways. They zoom past the crowd, into the city.

Zuma and Liberty rise up onto the deck. Liberty revs her new motorcycle. She's excited to be back in the game.

COMPUTER VOICE
Zuma, Liberty... Go!

Liberty and Zuma take off as Rocky and Rubble rise up onto the deck.

COMPUTER VOICE (CONT'D) (CONT'D)
Rocky, Rubble... Go!

They launch, zooming down the ramps and off into the city.

EXT. ADVENTURE CITY STREETS - DAY

Ryder catches up with the team as the PAW Patrol fall into formation. Liberty pulls up beside Chase.

LIBERTY
I missed riding with you guys.

CHASE
We missed you too. Now see if you can keep up!

Chase hits the gas and takes off. Liberty cranks the throttle, pops a wheelie on her new motorcycle, and takes off after Chase. The rest of the teams speeds behind them.

BOOM!

LIBERTY
What was that?

BOOM!

III

CHASE
It's getting louder!

BOOM! Suddenly the road splits open in front of them.

CHASE (CONT'D) (CONT'D)
Whoa!

Chase hits the brakes, and turns the wheel. His SUV skids around and the back wheels dangle precariously over the chasm in the road. The rest of the pups slam on the brakes.

MARSHALL
Earthquake!

RYDER
I don't think that's an
earthquake...

BOOM! BOOM! BOOM!

A huge shadow falls over them as Giant Humdinger walks out from behind a building. He looms over them, 200 feet tall!

HUMDINGER
Well, well, well, if it isn't my
old friends the PAW Patrol.

RYDER
Humdinger!

RUBBLE
(whispering)
He looks different than I remember.

Humdinger stomps toward Chase. Chase hits the gas, but his front tires just peel out, unable to drag the car off the edge of the crevasse.

CHASE
I'm stuck!

Humdinger lifts up his foot and brings it down on top of Chase. Suddenly Chase's car is yanked out of the way by the magnetic arms on Rocky's truck.

ROCKY
Gotcha!

SMASH! Humdinger's foot hits the ground, leaving a giant hole in the road.

RYDER
Go!

III

The pups turn around, and take off with Humdinger in hot pursuit. They swerve out of the way as Humdinger's feet stomp down, inches from their cars.

ZUMA
He must have one of the crystals!

LIBERTY

I think that's a fair assumption!

RYDER

Spread out and don't get stepped on!

Ryder activates off-road mode on his ATV. The tires double in size, and he jumps over a jagged slab of broken road.

Humdinger chases after them. A shadow falls over Zuma's hovercraft. Zuma looks back over his shoulder and sees Humdinger's giant foot heading right for him!

He throws a lever on his control panel, and his vehicle splits in half, launching him to safety in a mini-hovercraft. Humdinger stomps on the back section of Zuma's vehicle, obliterating it.

HUMDINGER

Hold still so I can squash you!

The pups race through the red light of an intersection. An ICE CREAM TRUCK DRIVER waiting at the stop light gets out of his truck and stares up in horror as giant Humdinger runs toward him. Zuma zips past on his mini-hovercraft.

ZUMA

Get out of the road!

The driver runs off as Humdinger steps on the ice cream truck, smashing it to smithereens.

RUBBLE

What kind of heartless monster stomps on an ice cream truck?!

EXT. THE PAMPERED POODLE PET GROOMING - DAY

DELORES, the fancy white poodle, struts out of the groomers looking like a million bucks. She calls back over her shoulder.

DELORES

Thanks for the cut hon. I've never looked better.

III

A huge shadow falls over her. She looks up and sees Humdinger's giant foot heading toward her.

DELORES (CONT'D) (CONT'D)

Ahhhhhh!

Liberty races toward Delores.

LIBERTY

Arf! Sidecar!

A sidecar deploys out of Liberty's motorcycle. Liberty skids in and scoops up Delores a split second before Humdinger's foot hits the ground.

Delores pops up out of the side car.

DELORES

Thanks for rescuing me! Getting squished would've like, totally ruined my hair.

Liberty skids around a corner and down a side street. Humdinger is right behind them.

LIBERTY

Don't mention it!

DELORES

Hey I know you, you're in the PAW Patrol. Is it fun, or is it like so much work?

BOOM! BOOM! Humdinger's feet smash down in front of Liberty. She swerves wildly to avoid being stomped on.

LIBERTY

It has its ups and downs!

DELORES

I was thinking maybe I should join. Not to do the rescues obviously, but like your social media or whatever.

LIBERTY

HANG ON!

Liberty hits ramp of broken asphalt and launches into the air. They land on a grassy clearing and smash through a series of bushes. Leaves fly everywhere.

Liberty looks over and the sidecar is empty. Delores pops out of a bush. Her hair is filled with sticks and leaves, and her white fur is dirty and disheveled. ▯

DELORES

On second thought, maybe I don't need a job.

Liberty catches up with the pups and they turn a corner. Up ahead, the road ends at a row of tall buildings that are under construction. They're surrounded by construction cranes.

RYDER

It's a dead end! Turn around!

The pups hit the brakes. They skid 180 degrees, and look up to see that Humdinger's got them cornered.

HUMDINGER

Looks like it's the end of the road, PAW Patrol.

Ryder hits the gas, trying to drive past Humdinger. Humdinger stomps. The road buckles in front of Ryder, like a giant asphalt wall. Ryder hits the brakes.

Humdinger stomps again on the other side of the road, creating another wall of buckled road. The pups are totally blocked in. They scramble down out of their vehicles, and retreat until their backs are against the wall.

Humdinger closes in, as the pups cower in his enormous shadow.

RUBBLE

Ryder?! What do we do?!

Ryder looks up in horror. There's no way of this one. Humdinger lifts his foot.

RYDER

(to himself)

I don't know...

Suddenly, a small voice breaks through the silence.

PICO (O.S.)

Junior patrol is on a roll!

Ryder and the pups look up to see Pico and Dot hanging off the end of a huge construction crane on a nearby building! Nano works the controls, and swings the crane toward Humdinger.

LIBERTY

It's the junior patrollers! III

Pico and Dot leap off the crane and grab onto Humdinger's mustache. Humdinger swats at them like he's got a bug on his face.

HUMDINGER

Ah! What is that? Get it off!

Pico and Dot scramble up his mustache.

PICO

Operation allergies!

DOT

Go!

They dive inside Humdinger's nose. Humdinger instantly screws up his face.

NANO

Start tickling!

Nano and Dot wriggle their fluffy little bodies back and forth. Humdinger's eyes start to water.

HUMDINGER

Ah... Ah... Ah... CHOO!

Humdinger sneezes the biggest sneeze in the history of sneezes. He shatters the windows of nearby buildings as he reels backwards and stumbles from the force of the sneeze.

Pico and Dot go flying through the air and land on the roof of a nearby parking garage.

Ryder watches Humdinger through his binoculars. He zooms in on Humdinger's jacket pocket where his binocular scanner reveals the crystal.

RYDER

Marshall, the crystal is in his jacket pocket!

Marshall aims his ladder at Humdinger and gets into his mini-glider.

MARSHALL

Arf! Mini-glider!

The glider launches along the ladder and into the air. Humdinger swats at it, but Marshall jumps off just in time. He grabs onto Humdinger's lapel and slides down into his jacket pocket.

Marshall pops out holding the crystal. III

MARSHALL (CONT'D) (CONT'D)

GOT IT!

HUMDINGER

Oh no you don't!

Humdinger grabs Marshall and squeezes him in his fist.

RYDER

Marshall!

HUMDINGER

Nobody messes with giant
Humgdingerrrrrrr-owwwwwwww!

Humdinger's hand starts glowing red. He opens his fingers, revealing Marshall holding a fireball in his paws.

MARSHALL

If you mess with fire, you're gonna get burned.

RUBBLE

Ooh. That's a hot one-liner!

CHASE

He's shrinking!

Without the crystal, Humdinger starts to shrink back to regular size.

CHASE (CONT'D) (CONT'D)

Humdinger, you're going back to jail.

HUMDINGER

Ugh. Not again.

The junior patrollers run toward the pups. Liberty pulls up on her motorcycle.

LIBERTY

That's what I'm talking about!
Lean, mean, fluffy little rescue machines!

Liberty hits a switch on the side of her motorcycle and a sidecar deploys.

LIBERTY (CONT'D) (CONT'D)

Hop in puffballs. You ride with me.

PICO / NANO / DOT

Awesome!

The junior patrollers jump in, happier than ever. III

RYDER

Let's go get Skye.

The pups hit the gas and race off down the street.

EXT. ABANDONED OBSERVATORY - DAY

Huge energy blasts shoot out of the observatory into the sky.

INT. ABANDONED OBSERVATORY - SKYE'S CELL - DAY

Skye sits alone in her cell, defeated. She watches Vee fire the Meteor Magnet into the sky over and over again.

VEE
So many meteors, so little time.

BZZZZT! The broken old doorbell buzzes.

Vee gets up and walks over to the door. She opens it. There's nobody there.

PICO (O.S.)
Hello!

VEE
Gah!

Vee looks down and sees the junior patrollers standing at her feet.

DOT
My name is Dot and these are my
brothers Pico and Nano.

NANO
We're selling pup scout cookies!

PICO
Can we interest you in a sweet and
tasty treat?

IN THE WOODS

Ryder watches through his binoculars. The pups stand beside him. Zuma wears their one and only crystal. III

RYDER
(whispering)
Vee's distracted at the door.
Remember, she's got superpowers so
don't let her know we're here until
you've got Skye out safely.

ZUMA
Aye aye, Ryder sir.

Zuma sneaks toward the fence. At the last minute he turns into water, walking right through it and reforming on the other side.

Zuma runs up to a dripping tap at the side of the observatory.

ZUMA (CONT'D) (CONT'D)
Surf's up!

Zuma transforms into water, and splashes into the drain on the ground.

INSIDE THE DRAIN

ZUMA'S POV: He rushes through rusty pipes, turning this way and that. The pipes rattle as Zuma travels through them.

AT THE DOOR

Vee looks up, hearing the rattle. Pico quickly distracts her.

PICO

We've got coconut cream,
shortbread, and mint chocolate
swirl.

VEE

Ohhhhh. Mint chocolate swirl, those
are the best!

NANO

We're dogs. We can't eat chocolate.
But we'll take your word for it.

INT. ABANDONED OBSERVATORY - MAINTENANCE ROOM - DAY

The faucet above a big industrial sink begins to rattle.
SPLASH! Zuma pops his head out of the sink.

He sees Vee at the front door talking to the junior
patrollers. Zuma sneaks into the observatory dome. III

ZUMA

(whispering)
Skye? Skye? Where are you?

SKYE

(whispering)
Zuma?

Zuma runs over, turns to water, and sloshes through the bars
of Skye's cell door.

SKYE (CONT'D) (CONT'D)

It's good to see you.

ZUMA

Time to bust out of here.

Zuma opens his collar, and gives the crystal to Skye. Her
suit lights up as power flows through it.

Skye grabs the bars with her front paws. Using her incredible
strength she pulls them apart.

SCREEEE! The rusty metal bends open, and Skye walks out of
the cell with Zuma behind her. Vee spins around.

VEE

You!

Vee flies directly at Skye. Skye takes off out the dome.

EXT. ABANDONED OBSERVATORY - DAY

Vee flies out of the dome and sees the rest of the pups standing in a circle with Skye hovering above them.

VEE

Only one of you has powers. You're
no match for me.

Zuma walks out of the observatory behind Vee. The pups have
her surrounded.

RYDER

We're a team. When you go up
against one of us, you go up
against all of us.

Vee's hands charge up with crackling balls of energy.

VEE

I want that crystal back. III

Vee blasts electricity at Skye, Skye swoops out of the way
just in time.

RYDER

Marshall!

Skye drops the crystal to Chase. In a blue flash, Chase zips
across the courtyard and hands off the crystal to Marshall.

Marshall's paws glow, and he blasts two fireballs directly at
Vee. She dodges them and they slam into the observatory,
blasting a huge hole in the front wall.

Vee uses an energy beam to pick up Marshall's truck and hurl
it at him.

RYDER (CONT'D) (CONT'D)

Rocky!

Chase takes the crystal from Marshall, and zips it over to
Rocky. Rocky's paws glow and he uses his magnetic power to
catch the fire truck just before it crashes into Marshall.

ROCKY

Keep your hands off our vehicles!

Rocky sets down the fire truck.

SKYE

Rocky!

Skye runs past Rocky, he tosses her the crystal. She flies up over the fire truck, stopping on a dime and causing a shockwave. Vee goes reeling back into the hole in the front of the observatory.

RYDER

Rubble!

Chase takes the crystal from Skye and zips over toward Rubble-

Vee scrambles to her feet fires a blast of energy into the ground in front of Chase. The ground explodes in a shower of rocks.

SLOW MOTION: Chase trips on the crater and tumbles end over end. The crystal flies out of his collar. Liberty turns and sees Chase tumbling toward the edge of the cliff.

END SLOW MOTION:

LIBERTY

Chase!

III

Liberty runs after Chase. The loose crystal flies through the air and attaches to her collar. She grabs onto Chase and gets pulled over the cliff with him.

LIBERTY / CHASE

Aaaaaaaaugh!

BOING! Suddenly Chase and Liberty bounce up, as if connected to a giant bungee cord.

REVEAL: Liberty's body is stretched out, with her back legs still hanging on to a tree root sticking out from the edge of the cliff.

LIBERTY

Ha ha! I'm stretchy! Check me out!
That's my super power! I'm
stretchy! I mean how did I not
think of that? It makes perfect
sense! I'm a wiener dog. I'm
already kind of stretched out in
real life!

CHASE

Uh Liberty, can you please... Get
us out of here?

LIBERTY

Oh right.

SPROING! Liberty retracts, shooting them back up to the edge of the cliff.

RYDER
Nice catch Liberty!

LIBERTY
Thank you!

Vee's hands begin to glow with energy. She walks straight at Liberty.

VEE
Give me that crystal.

RYDER
Zuma!

Liberty takes the crystal in her mouth and hurls it over to Zuma. He jumps into the air and catches it on his collar. Vee turns and fires a blast of energy at him.

Zuma turns into water and splashes down into a drain in the ground. Vee looks around, wild eyed. III

VEE
Where'd he go? Where's the
crystal?!

Vee backs up, her hands glowing, ready to fire.

VEE (CONT'D) (CONT'D)
You can't hide forever!

Vee stops walking as she bumps into the edge of the fountain.

Suddenly the water of the fountain comes to life and transforms into Zuma. He lands on Vee's back and pulls off her necklace.

ZUMA
These crystals belong to us dude!

Zuma jumps down and tosses the necklace to Ryder. Vee's hands stop glowing.

VEE
Noooooooooooo!

Ryder takes the crystals off the necklace and hands one to Chase. His suit lights up.

CHASE
Victoria Vance. You are under
arrest. You're going back to jail.

VEE
You've got to catch me first!

Vee turns to run. Suddenly there's a blue flash. Vee looks down in shock. She's wearing handcuffs. Chase smiles.

CHASE

What can I say? I'm fast.

Vee slumps down, her back against the fountain. She's been defeated. Ryder begins handing out the crystals.

SKYE

There's only one thing left to do.
Shut down that meteor magnet for
good.

Skye looks through the hole in the front of the observatory at the meteor magnet.

LIBERTY (O.S.)

Hey Rubble, want to go for a ride? []
[]

REVEAL: Liberty is stretched out between two trees like a giant slingshot.

RUBBLE

Teamwork makes the dream work!

Rubble jumps into the center of the sling shot, and curls into a wrecking ball.

LIBERTY

FIRE!

Liberty shoots Rubble through the front of the observatory and smashes into the meteor magnet. It explodes in a huge shower of sparks.

Rubble pops up and does a little victory dance, complete with a spin and a moonwalk.

RUBBLE

Oh yeah! How do you like me now?!

The pups cheer and howl.

Vee begins to laugh to herself. The pups turn to look at her.

LIBERTY

What are you laughing at? You've
got a one way ticket to three hots
and a cot.

VEE

You're too late. Destroying my
invention doesn't change anything.
I already pulled those meteors out
of their orbit. They're coming down
whether you like it or not.

SKYE

Oh no...

Ryder grabs his pup pad. Hundreds of flashing dots are closing in on his radar.

RYDER
She's telling the truth! There's
hundreds of meteors heading
straight for the city.

SKYE
What have you done?!

Vee smiles a twisted smile. []

VEE
I'm making history.

Ryder looks down at the city.

RYDER
We've got to evacuate Adventure
City.

LIBERTY
There's two million people down
there!

Ryder crouches down and puts his hand on Skye's shoulder.

RYDER
Skye, I need to you fly up there
and destroy as many of those
meteors as you can.

SKYE
You still believe in me after
everything I've done?

RYDER
I've always believed in you Skye.
You're the reason I started saying,
"No pup's too small."

Skye looks at Ryder. She knows how much is at stake.

SKYE
I'll give it everything I've got
Ryder.

RYDER
I know you will.

Skye turns toward her jet.

CHASE
Wait.

Skye stops. Chase takes the crystal out of his collar.

CHASE (CONT'D) (CONT'D)
If you're going up against those
meteors, you better take all the
power you can get.

He holds the crystal up to Skye's collar, and it attaches.

One by one the pups take off their crystals, and give them to Skye. III As Liberty gives Skye the final piece, the crystals glow brighter than ever and energy courses through Skye's uniform.

CHASE (CONT'D) (CONT'D)
We believe in you Skye.

Skye looks back at her family with appreciation.

EXT. ABANDONED OBSERVATORY - DAY

Skye sits in her jet. She lowers her visor and slams her energy filled paws on her steering pad. Instantly, the energy of all seven crystals courses through her jet. Massive panels open up revealing a huge, never before seen rocket booster.

SKYE
Let's take to the sky.

Skye hits the throttle and the rocket booster fires. She's launched forward, and flies up into the sky.

Ryder and the rest of the pups jump into their vehicles.

RYDER
Okay pups, we've got a city to
evacuate. Let's move!

Ryder the pups race off toward the city.

INT. SKYE'S JET - DAY

Skye's radar shows the meteors approaching but the sky is clear. Suddenly the meteors hit the atmosphere and begin to glow.

SKYE
There you are.

Skye banks her jet toward them and activates her targeting computer.

SKYE'S VISOR POV: Little tracking triangles lock on to dozens of meteors on her digital readout.

She throws another switch. Her regular steering column retracts into the jet, and is replaced by a fighter pilot style flight stick covered in buttons.

SKYE (CONT'D) (CONT'D)

Fire!

III

Lasers shoot out from the tips of her wings. BOOM! The first meteor explodes into tiny harmless debris.

ZAP! BOOM! ZAP! BOOM! Skye banks and swerves between the falling meteors, taking them out one by one. She flies out of the meteor zone and turns around to make another run.

EXT. ADVENTURE CITY STREETS - DAY

Warning sirens blare. Ryder's voice booms out over the speakers, as citizens evacuate the city.

RYDER (O.S.)

There are meteors headed directly for Adventure City. Evacuate the area immediately. This is not a drill. I repeat, evacuate the area.

Ryder and the pups pull over and jump out of their vehicles. They start directing the traffic and panicked civilians.

CHASE

Keep moving everybody! Only bring what's absolutely necessary.

Ryder looks down at his pup pad, the radar shows more meteors coming into Earth's atmosphere.

RYDER

Skye, you've got more meteors incoming.

IN THE SKY

SKYE

Copy that.

Skye looks up to see more meteors appearing in the upper atmosphere.

SKYE (CONT'D) (CONT'D)

Time to turn and burn.

Skye presses a button on her flight stick, and the wings start to rotate around the center of her jet. She flies up toward the incoming meteors and unloads a barrage of laser blasts destroying almost all of them.

SMASH! Suddenly a tiny meteor rips through her wing. Alarms go off in the cabin.

SKYE (CONT'D) (CONT'D)
I'm hit!

III

RYDER (V.O.)
Skye are you okay?

Skye fights with the controls and banks the flaming jet out over the ocean.

SKYE
I'm fine, but I'm gonna have to ditch my jet.

Skye opens the cockpit glass above her and hovers in place, as the jet falls away toward the ocean.

A meteor flies directly at her. She swings, punching through it with her glowing super powered paw.

SKYE (CONT'D)
(cont'd)
Alright space rocks. What do you got?

She flies back and forth punching the meteors with her fists.

SKYE (CONT'D)
That's all of them! The sky is clear!

IN THE CITY

Ryder's pup pad starts to flash red. WARNING! WARNING!

RYDER
Oh no...

A huge shape is visible on his pup pad. It's a hundred times bigger than any meteor they've ever seen.

RYDER (CONT'D)
Skye! There's a huge meteor incoming!

IN THE SKY

Skye looks up at the clear sky above her.

SKYE
I don't see anything... Wait a second...

A faint shadow appears in the atmosphere above her. Suddenly it catches fire, revealing the scope of this massive unstoppable meteor. Skye's face falls.

IN THE CITY

People stop evacuating and turn to look up at the sky. The meteor is enormous. There's no escaping it. III

RYDER

Skye! You've got to get out of there!

IN THE SKY

Skye looks down at the city, then back up at the meteor.

SKYE

I can't do that Ryder. I have to try.

RYDER

Save yourself Skye. That meteor's too big! You don't stand a chance!

Ryder's voice cuts in and out of static.

The radio is quiet. Skye is alone. She looks up at the meteor. Her face is filled with fear.

SKYE

(to herself)

No pup's too small...

[FLASHBACK] - Baby Skye squeezes through the hole in the barn. She walks headfirst into the blizzard.

BACK TO SCENE: Skye musters her courage and slams her paws together. The crystals shoot a surge of energy through her body. She thrusts her glowing fist in the air and flies toward the monster-sized meteor.

SKYE (CONT'D) (CONT'D)

(to herself)

No pup's too small...

[FLASHBACK] - Baby Skye stands up proudly in front of Ryder as he puts her pup tag on for the first time.

BACK TO SCENE: Skye puts her head down, clenches her teeth and closes her eyes.

[FLASHBACK] - Rapid cuts of all of Skye's successful rescues over the years.

Rescuing Cap'n Turbot's sinking ship / landing the damaged jet / destroying the cloud catcher / bending the bars of her cell / destroying the Meteor Magnet / blasting away the clouds with a shockwave.

The flashback ends on a shot of her family. Ryder and the pups looking directly into camera. This is who she's fighting for.

BACK TO SCENE: Skye opens her eyes and looks defiantly at the meteor. Skye is without fear. She finally believes... III

SKYE (CONT'D) (CONT'D)
NO PUP'S TOO SMALL!

Skye slams into the meteor.

A FLASH OF LIGHT. A HUGE EXPLOSION.

IN THE CITY

Ryder and the pups all shield their eyes from the blast.

The light in the sky fades, the meteor has been obliterated. Thousands of small smoking pieces of rock fall harmlessly into the ocean.

Skye's body plummets toward the ocean. SPLASH! Skye's body hits the water and disappears below the surface.

RYDER AND THE PUPS
SKYE!

Ryder and the pups watch in horror from the shoreline. They're in shock, nobody moves a muscle. Could she be--

CHASE
Wait... What's that?

The water begins to glow. Suddenly Skye shoots out of the water, flying up into the sky. She loops through the air and hovers in front of them, glowing and powerful.

RYDER AND THE PUPS
Whoa...

A crowd has gathered on the shoreline. They burst into cheers.

Liberty beams with pride.

LIBERTY
(laughing to herself)
Always showing off.

Skye lands in front of the pups, and Ryder runs up and hugs her.

RYDER

I'm so proud of you Skye. That's the bravest thing I've ever seen.

Skye laughs. ■■■

SKYE

Don't look so surprised. You're the one that always says no pup's too small.

Ryder laughs. The other pups run up.

CHASE

You did it Skye!

ZUMA

That was amazing!

Tony shouts out from the crowd.

TONY

Let's hear it for Skye and the Mighty Pups!

The crowd bursts into cheers. The pups howl in appreciation.

ALL PUPS

AWO AWOOOOO!

SKYE

AWO AWOOOOO!

INT. ADVENTURE CITY JAIL - DAY

Vee is wearing her orange prison jumpsuit. The guard marches her past Humdinger's cell. One of the kitties scratches a mark into the wall, counting the days.

HUMDINGER

Hmph. They got you too?

Vee sits down in her own cell, and the bars slam shut.

VEE

I can't stand those pups.

MONTAGE - CITY REBUILDING TIME LAPSE

All around the city, we see time-lapse footage of buildings being rebuilt, roads being repaired, and life returning to normal.

We end on a time-lapse of the pup tower being rebuilt. The finished tower stands majestically in the sunshine, looking better than ever. III

INT. PUP TOWER - DAY

Skye walks up to the window and looks out at the rebuilt city.

SKYE (V.O.)
We are the mighty pups. Defenders
of Adventure City. Guardians of all
that's good in the world.

EXT. OCEAN - SUNSET

The hull of the aircraft carrier cuts through the water as it races along the coast of Adventure City.

Chase and Rubble look over the side of the carrier as the massive anchor finishes raising into place.

CHASE (V.O.)
With these superpowers comes a duty
to protect all those who need our
help.

Ryder stands on the bridge, driving the massive ship. He picks up his binoculars and looks out toward the horizon.

RYDER (V.O.)
Our promise is to always do what's
right, and stop at nothing to keep
the world safe.

Ryder and the pups (without Skye) gather at the bow of the ship. Liberty comes running up with the junior patrollers close behind.

Skye flies through the clouds, then banks down toward the aircraft carrier. She zooms over the runway, then lands, running along the deck.

SKYE (V.O.)
Because even the smallest pup can
make the biggest difference.

Skye joins the pups at the bow the ship. The wind blows in their fur as the warm glow of the setting sun washes over them.

RYDER
No rescue's too big...

SKYE
No pup's too small! III

Skye leans her head back and howls.

SKYE (CONT'D) (CONT'D)
Awwooo awoooo!

The rest of the pups join in.

ALL PUPS
Awooo awooooooo!

CUT TO BLACK

THE END CREDITS ARE INTERRUPTED BY ONE LAST SCENE

INT. PUP TOWER - CONTROL ROOM - NIGHT

All the lights are off in the control room. Nano and Dot wait nervously in the corner. Pico runs in.

NANO
(whispering)
Did you get them?

PICO
Yep.

Pico reveals three glowing crystals. They each take one. Suddenly the junior patrollers start to glow. Pico glows red, Nano glows blue, and Dot glows yellow.

PICO / NANO / DOT
Three... Two... One... Go!

They jump into the air and bounce off the ground like the bounciest super balls in the world. They ricochet off every surface in the control room.

OUTSIDE THE TOWER: The control room is illuminated by their multicolored, super fast, glowing streaks.

Suddenly Ryder switches on the lights. He's wearing PAW Patrol pajamas.

RYDER
What's going on in here?

REVEAL: The junior patrollers sit perfectly still, pretending to read a book.

PICO
Just studying for our next junior patrollers exam.

III

Ryder stares at them for a moment. The junior patrollers hold their breath. They're definitely busted. Ryder yawns.

RYDER

Well... Keep up the good work.

Ryder switches off the light as he leaves. The junior patrollers once again begin to glow.

PICO / NANO / DOT

Go!

They bounce around the room and fly right into camera.

THE END
